ALL SUMMER SESSION OF CONGRESS CERTAIN

Battle Over President's Tax Program To Prolong Session

WEARY CONGRESS PLANS FOR BATTLE

Open Hearings On Roosevelt's Tax Program Likely Next Week

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, June 27.—With an all-summer session virtually certain—and it may drag into the Fall—a weary and bewildered Congress today "dug in" for a protracted battle over President Roosevelt's tax program.

Three days of confusion and revolt ended with an agreement that the house ways and means committee initiate a bill to carry out the president's so-called "share-the-wealth" plan.

Refusal of the Democrats on this committee to permit the Senate to write the bill and widespread attacks on the plan to jam such an important bill through Congress within five days brought the abrupt change of plans.

To Open Hearings

Chairman Doughton (D) of North Carolina of the house committee, plans to open hearings next week on the president's plan. Simultaneous hearings will be held by the Senate finance committee.

The country was promised a chance to be heard on the program of high inheritance and gift taxes, a boost in income taxes on big incomes and a graduated corporation income tax.

While administration leaders pledged speed in putting the program through, serious obstacles confronted them. The situation was complicated by the leaders' uncertainty over the exact desires of the president.

A renewed fight for payment of the soldiers' bonus was certain to spread to serious proportions as the session dragged on, with inflationists also planning to renew their battle.

The LaFollette program, which calls for taxation of the small-salaried man and the "middle class" as the only method of getting enough money to approximately balance the budget, was another obstacle.

Report Mrs. Coo Is Near Collapse

Prisoner Doomed To Die Tonight Unless Given Reprieve By Gov. Lehman

LITTLE HOPE NOW HELD BY WOMAN

MRS. EVA COO

(International News Service)

OSSINING, N. Y., June 27.—As the hands of the clock ticked slowly toward the hour of doom for Mrs. Eva Coo, today, the 43-year-old slayer of handyman Harry Wright, was reported near a complete collapse in her Sing Sing prison death house cell.

Unless Governor Lehman grants her a last minute reprieve, the iron woman of Crumhorn Mountain will die in the electric chair shortly before midnight tonight.

Throughout yesterday, the ash blonde former roadhouse keeper derived some degree of hope from the belief that the governor was still considering her request for commutation of her sentence to life imprisonment.

Despair Grips Her

As the hours passed without word from Albany, however, despair took possession of Mrs. Coo.

Death house attaches said she was convinced now that the governor would not intervene in her behalf.

Her only visitor in the last few days has been her attorney, David Slade. She faces death without having seen her mother, who lives in Canada; her five sisters and three brothers, since her conviction.

Fight On Alarming Increase In Taxes

Report Of Work Done By Tax Justice League Will Be Given This Evening

Delegates from Beaver and Butler counties will be here this evening to attend a conference with Lawrence county members of the Tax Justice League. The meeting will be held at the Elks club, with a dinner at 7 o'clock and speaking later.

Among the speakers will be A. T. Shoup, executive secretary of the Tax Justice League, who has spent his time at Harrisburg in the interests of the league, while the legislature was in session.

The Tax Justice League is now organized in nearly all counties of the state and is particularly strong in Allegheny county. In Lawrence, Butler and Beaver counties regular monthly meetings are attended by delegates from the three counties.

The Tax Justice League has proven a very formidable weapon with which to fight the alarming increase in taxation in this state.

President's New Tax Program Is To Meet Delay

Will Not Be Considered In Congress Until "Must" Program Is Completed

CONGRESSMEN FEAR LONG CONTROVERSY

Many Old Issues Will Be Revived As Result Of Wealth Tax Demands

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, June 27.—Fearful that the battle over the Roosevelt tax program may clog the machinery of congress, House leaders today ordered all pending "must" bills disposed of before the tax program is considered.

Speaker Bryns estimated the house can complete its "must" program within two weeks.

The decision, however, presaged further delay for the president's program of interitance, gift, higher individual income and graduated corporation taxes.

See New Issues

Administration leaders conceded that the tax battle will bring the soldiers' bonus before congress again, may precipitate a tariff fight and reopen the inflation issue.

While senate and house leaders disagreed on their estimates as to adjournment delay caused by the tax program, predictions ranged all the way from August 10 to October 1.

Time required for disposition of the tax program in the house, Bryns said, depends on the length of hearings, time of action by the senate, and admittedly is a mere guess.

The ways and means committee was prepared to open hearings on the tax program next week, but they may be slowed by necessity of acting on the Guffey-Snyder coal bill and other measures.

Mellon Case Is Being Resumed

Income Tax Battle Against Andrew W. Mellon Is Continued In Pittsburgh

(International News Service)

PITTSBURGH, June 27.—Renewing its income tax battle against Andrew W. Mellon, the federal government went into court here today in an attempt to force the Union Trust Company to bare secrets contained in its files.

Chief Government Counsel Robert H. Jackson asked Federal Judge Nelson McVicar for an order directing the trust company to show cause why it should not produce records the government claims are vital in the Mellon income tax case. Contending the documents requested are confidential, the trust company has ignored subpoenas and steadfastly refused to produce them.

Judge McVicar set July 9 as a date for the bank to answer Jackson's charge that records are being withheld illegally.

The government claims the desired documents have an important bearing on the case in which it seeks $3,089,261 in additional taxes and penalties on the former treasury secretary's 1931 income.

When members of Theta Kappa Omega, national high school fraternity, named a fraternity sweetheart at their national convention held in Shreveport, La., they chose two-twins—Misses Julia and Winston Wendt.

The Wendt twins are daughters of State Maintenance Engineer J. R. Wendt of the Louisiana highway commission of Baton Rouge. They will wear the silver emblem of T. K. O. during the next year and serve as "sweethearts" of the fraternity.

The girls were sponsors of the Baton Rouge chapter of the fraternity during the past year.

Noted Forger Is Foiled Here

Bank Clerk Halts Attempt To Put Over $1,250 Local Swindle

FORGER FLEES AS ATTEMPT FAILS

Boldly walking up to a teller's cage at the First National Bank of Lawrence County shortly before the closing hour on Wednesday afternoon, one of the country's most brazen of check forgers known as "Edward Davis" laid down a certified check for $1,250 and asked that it be cashed.

Teller Raymond M. George thought something was wrong and began an investigation that halted when the check passer dashed furiously out of the bank and out of sight less than 20 minutes after entering.

Police were notified and immediately set out on the hunted forger's trail. They had not located any trace of him today.

Discover Identity

While Mr. George suspected the check for different reasons the moment it appeared on his counter, it was not known, that its passer was a widely-known and hunted forger until bank officials had consulted their "protection bulletin."

Repeatedly, it was learned, Davis has successfully passed and unsuccessfully forged checks.

At 1:45 p. m. Wednesday, the stranger appeared at Teller George's counter yesterday with the check.

BEVERLY HILLS, Cal., June 27.—The first battle of the next war was fought in New York City Tuesday night. Big Italy met Little Abyssinia, and Mussolini's first spring drive was halted in its tracks.

General Joe Louis, head of the Ethiopian forces, met Il Duce Carnera (the biggest Roman of them all) and treated him like a Christian of gladiatorial days.

Now there is a movement to send "Lion" Louis to Abyssinia to meet Mussolini's whole army. His trip is being gladly paid for by several American philanthropists (new friends of Abyssinian liberty), a Mr. Braddock, a Mr. Baer (not Bugs) and even a German, a Mr. Schmeling, has contributed to make Mr. Louis' trip to Africa more permanent.

Gang Suspects Fire On Police

Make Escape From Police At Paterson, N. J., With Gun-fire

SIX IN CAR AS FLIGHT IS MADE

(BULLETIN)
(International News Service)

PATERSON, N. J., June 27.—Masked by a series of pistol shots, three men and three women, believed connected with the eight men and one woman rounded up in a bungalow raid Sunday, escaped from police in East Paterson today.

The sextette made their escape in a car believed stolen several hours earlier in Little Falls, a suburb.

Police Sergt. Anthony Barra and three state troopers pursued the machine which dashed out of a gasoline service station as the officers approached.

One of the men in the rear seat of the fleeting car cooly leveled a gun at the officers' machines and opened fire. Several shots rang out as the mobsters' car outdistanced the police cars and sped away in the direction of Newark.

Joseph Bevroutely reported to police that last night, when he stopped to investigate a parked automobile on the highway, one of three men in the car ordered him out of his machine at gun-point, and that the men and three women companions then drove off in his car.

Because of their boldness in opening fire, police believe the six have underworld connections with the gang captured at a mountain view bungalow last Sunday. Questioning of that gang, still in progress, was reported to have resulted in definite "leads" on two New York gang slayings.

Father And Son Die For Murder

Double Execution Takes Place In Canada At Early Hour This Morning

(International News Service)

ST. THOMAS, Ont., June 27.—In the first execution of its kind in Ontario, a father and his 21-year-old son were hanged in the court yard of the Elgin county jail early today for the murder of Constable Colin McGregor, May 7, last year. The father was Frank MacTemple and the son Fred MacTemple.

The father was hanged at 2:06 a. m., E. D. T., and Fred at 2:25 a. m. Provincial and city police completely surrounded the jail, apparently fearing sentiment against the hanging might cause an attempt to free the MacTemples. Hundreds of persons gathered in the vicinity of the jail.

It was charged Frank MacTemple shot MacGregor when the constable went to arrest the son on a theft charge. According to the evidence, the son prompted his father to commit the murder.

July 5 Is Date Set To Fix Salary For New City Treasurer

Following the instructions of the New Castle School board at the recent special meeting, Attorney William J. Moffatt, solicitor for the board has arranged a meeting of the board, the city council and the county commissioners for July 5 to make arrangements for the setting of the salary of the new city treasurer.

There is considerable doubt surrounding the legality of the act which recently made the commissioners a part of the board setting the salary and which also provides that the city treasurer shall collect the county taxes in the city.

County Solicitor William McElwee, Jr., has given no formal opinion on the act but said informally that he doubts if the act will hold. His reasons for this are first that the new act says specifically that "no local or special acts are repealed by this act." This leaves the county

Volant College Alumni Members Assemble Again

Annual Reunion Takes Place On Old College Campus At Volant Wednesday

OLD RESIDENTS ARE ALSO PRESENT

With the largest crowd that has ever attended a Volant College reunion and Volant Community Day in attendance, the annual event which took place Wednesday on the old campus grounds of the school, will live long in the memory of the members of the Alumni and residents of the town.

It was "Hello Lyda" or "Grace," or "Hettie' or "Hello Jim," and "Homer" and "Sollie" and "Doss" as the former schoolmates of forty years ago greeted each other yesterday.

Many of these former students at Volant College had not seen each other for close to forty years, but their memories were keen and they were soon recounting their boyhood adventures and pranks.

Arrive Early

Early in the morning, automobile load after automobile load of folks began arriving from Pittsburgh, Cleveland, Franklin, Oil City and intermediate points, bringing the former college students and former residents of the town back to the scene of their boyhood.

A pleasant time was spent in reminiscing and then at noon, all sat down to a bountiful dinner in the dining room of the Presbyterian church, where the ladies of the Missionary Society had outdone themselves to prove that the Volant dinners are what they have always been, the equal of any to be found anywhere.

Following dinner, the program of the afternoon was presented in the Presbyterian church.

GIVE BUSINESS CHANCE IS PLEA

(International News Service)

HARRISBURG, June 27.—With a plea of "give business a breathing spell," the Pennsylvania Chamber of Commerce today urged that enactment of President Roosevelt's "share-the-wealth" taxes be postponed "for the present."

In a letter addressed to all Pennsylvania congressmen, the chamber said:

"We are emphatically opposed to hasty enactment of the president's share-the-wealth tax program. The new tax program throws another monkey wrench into the process of economic recovery. Give business a breathing spell, and defer action on the program from the present."

Special Message From President Asks For Action

Roosevelt Recommends Congress Deny Permission To Sue U. S.

MESSAGE FOLLOWS DAY'S CONFERENCE

Move Made To Close Loopholes For Holders Of Gold-Clause Bonds

(BULLETIN)
(International News Service)

WASHINGTON, June 27.—President Roosevelt, in a special message, today asked Congress to enact legislation withdrawing the consent of the United States to be sued upon its currency or securities.

The presidential move was a result of the Supreme Court's ruling which held the so-called gold clause unconstitutional but denied petitioners redress on the grounds they had suffered no actual loss.

Recommends Action

Specifically, Mr. Roosevelt recommended that Congress immediately:

1. Authorize and direct the secretary of the treasury at the request of holders of gold clause securities to make payment therefor in cash, dollar for dollar, with accrued interest, or at the holder's election, to exchange such securities for non-gold clause securities with the same interest rate and maturity date;

2. Terminate any consent which the United States may have voluntarily given to be sued on its securities, coins or currency, and,

3. Reaffirm the fixed policy of the United States to make payment to all holders of its securities, coins and currencies, or an equal and uniform dollar-for-dollar basis, making appropriations available for such payment only on that basis.

No Right To Sue Government

"There is no constitutional or inherent right to sue the government," said the president, "on the contrary, the immunity of the sovereign from suit is a principle of universal acceptance, and permission to bring such suit is an act of grace which, with us, may be granted or withheld by the Congress. The courts.

Final Day For Home Owners Loans

Office To Be Open Here Until Midnight For Last Minute Rush

All applications for home owners loans must be in and signed by midnight tonight if they are to be acted upon. Today is the last day for the applications to be presented and in order to accommodate all people who wish to get theirs in before the dead line, C. P. Cloak, manager of the local HOLC office, has arranged to keep the office open until midnight.

The fact that the applications have been taken out at the office does not make them good. They must have been returned signed, with the necessary information upon them.

No matter the worthiness of the case, the application must be in and signed by midnight tonight. The office of the HOLC is located on the second floor of the Federal building on the Public Square.

State-Wide Police System Is Urged

(International News Service)

BEDFORD SPRINGS, Pa., June 27—A state-wide police force instead of the "inadequate and ineffective" municipal system in existence today was urged in a report submitted at the annual convention of the Pennsylvania Bar Association here today.

The committee on prosecutors and police offered the program as a means of combatting crime. In submitting the report, William S. Moorhead, Pittsburgh, asked the association to recommend the state-wide police system. It would be under the direction of a superintendent appointed by the governor and removable only for just cause.

Junior Section

Another committee, consisting of George Hafner, Dauphin, Burt T. Harris, Pittsburgh and John A. Skelton, Philadelphia, proceded with its work of organizing a junior section of the bar association. This action was decided upon when an amendment to the bar constitution, permitting formation of the younger group within its own organization, was tabled. More discussion will be devoted to this question before the three-day convention concludes.

Rather than attack the Roosevelt 'new deal' by adopting the report on federal law of Ira J. Williams, Philadelphia, the association voted to file it. Some members of the bar asserted the attack, embodied in the report, was a violent expression of partisan politics

LEGISLATIVE ANTICS ARE SCORED

Leader Of Club Women Shocked

Mrs. John M. Phillips Assails Procedure In Legislative Session

ANTICS OF HOUSE MEMBERS ASSAILED

(International News Service)

PITTSBURGH, June 27.—There'll be no more flying cuspidors or exploding firecrackers during legislative sessions if Mrs. John M. Phillips has anything to do about it—and it looked today as if she might.

It was the rowdyism which prevailed among state representatives at closing sessions of the legislature last week which drew from the president of the State Federation of Pennsylvania Women a scorching denunciation as the "most disgraceful performance of a group of presumably intelligent men I have ever seen"

That indoor sport might be denied the legislators for all time was indicated in Mrs. Phillips' announcement that a resolution opposing such "performances" will be presented to the federation's convention at Erie in October. There are 50,000 members of the federation.

Threw Cuspidors.

One firecracker blast during the "going home" celebration in the house injured a member so badly he went to a hospital for anti-tetanus treatment, Mrs. Phillips related. And she added, indignantly:

"And only that morning, they threw cuspidors and one man was hit on the head. When the speaker tried to get attention he might as well have talked to a cage of animals as far as getting a response was concerned.

"When rolls were called on several important bills, they gave catcalls and each man tried to be funnier than the other in answering."

But it wasn't funny to Mrs. Phillips. She sat silent in the gallery, carefully noting all that took place.

"They tore up paper and threw it over the house," she continued, "making it a disreputable looking place for any orderly minded person to go into. They rolled up the bills and hit each other over the head."

About 20 "fine gentlemen" in the house had nothing to do with the outburst—nor did the senate, she explained.

Arrested on theft charge, a sixteen-year-old boy of Doncaster, England, was stated to smoke 100 cigarettes a day and sometimes to drink 10 glasses of beer at a time.

REPORT MRS. COO IS NEAR COLLAPSE

(Continued From Page One)

me under such unpleasant circumstances," she is reported to have said.

Leonard Scarnici, who killed a Rensselaer detective in a bank holdup, also is scheduled to die in the chair tonight.

Governor Is Silent

Albany, N. Y., June 27.—Governor Lehman today threw a blank wall of silence around his decision in the case of Mrs. Eva Coo, 43-year-old Cooperstown roadhouse owner, who must die in the Sing Sing electric chair tonight unless the governor intervenes.

The executive also declined to comment on the case of the thrice-reprieved Leonard Scarnici, New York City gangster, who is scheduled to be electrocuted tonight for the murder of Detective James Stevens during a Rensselaer holdup two years ago.

The governor, following his unusual procedure, has arranged to keep an open telephone line between the executive mansion and the death house tonight, in case there should be some reason for a last minute decision.

Last Gamble For Scarnici

Ossining, N. Y., June 27.—Eva Coo's death house companion today left her to go to the electric chair alone tonight.

He is Leonard Scarnici, convicted slayer of Detective James Brady in a Rensselaer bank robbery. Scarnici, who was scheduled to walk the last mile with the lynx-eyed mistress of the backwoods fleshpots, was taken out of Sing Sing prison and into Federal court in a dramatic unprecedented action on an execution eve.

Granted a writ of habeas corpus by Federal Judge Bondy, he was driven to New York City so his lawyers might plead anew for his life. If he wins he will come back to the prison, but not to the death house—or the chair.

If he losses he will either follow or precede Eva to death at 11 p. m.

Scarnici's fortune brought a warm ray of hope and at the same time a chill of terror to the profit-inspired murderess of Harry (Gimpy) Wright. If it's a lucky day for Scarnici, might it not be for her too? But if he gets off and she doesn't, she'll be all alone in the death march.

But the condemned woman and her lawyer, Davis Slade, of New York, refused to concede she will die. Slade declared Eva had unwittingly disclosed valuable new evidence in a conversation last night. He was trying desperately to see Governor Lehman, declaring the new "evidence" would save her.

Stubbornly protesting her innocence, Eva has done nothing in the way of preparing for death.

Lehman Moves To Prevent Strike

(International News Service)

ALBANY, N. Y., June 27—Governor Herbert H. Lehman today moved to prevent a strike in the New York City garment industry which would throw 40,000 persons out of work and close down 2,000 manufacturing firms.

The governor, who has been singularly successful in mediating strikes in the garment industry since 1924, sent telegrams to six leading manufacturers and labor representatives asking them to meet with him at the capitol tomorrow afternoon.

Postpone Trial Of Miss Warner

Test Case On Stage Nudity Is Delayed In Paris Court

By EDWARD HUNTER
International News Service Staff Correspondent

PARIS, June 27—The organization called "the association for the increase of the French population" today was given an extra two weeks to assemble ammunition for the guns it has trained on pretty Joan Warner, young American dancer now known generally as "the girl who shocked Paris."

Trial of Miss Warner in a test cast on stage nudity was postponed until July 11 because Henry Torres, French deputy and a leading criminal lawyer who will defend the dancer, had to appear in Brussels in a murder trial.

The public thus will have to wait at least two weeks more before it can solve the mystery of the relationship between the French birth rate and the nude—extremely nude—dance which Miss Warner staged, until stopped, at the Bagdad, exclusive Paris night club.

The A. for the I. for the F. P. is the plaintiff in the case, having filed papers after its officers saw Miss Warner perform at a tea dance. Of all those who dance in the nude in Paris, this young Pennsylvanian was weeded out to hear the law rule on her performance.

An unusual aspect of the affair is the fact that M. Dubois, commissaire of police with whom the A. I. F. P. filed its complaint, himself witnessed Miss Warner's dance and previously had submitted a favorable report, declaring it was not obscene and was created artistically.

French law decrees that dancers appearing in public must wear something, although the size of the "dress" is not specified. Miss Warner will contend in her defense that she was not entirely nude.

"My reputation is at stake," she said today. "I shall defend myself in French. Yes, I studied the language under my governess in Pennsylvania. "And then I will have the moral support of my brother, who will be in the courtroom."

Miss Warner identified her brother as an American consular official in the Far East.

SCHOOL REUNION ATTRACTS CROWD

(Continued From Page One)

have diverted their attention and so that was what was served at 6:30. In less than an hour the program of the evening, with Archie Cubbison as chairman, and President Thomas W. Dickey presiding, was underway.

Mrs. Mary Clark Present

A guest of honor, Mrs. Mary Wilder Clark, well known resident of the public square, and the oldest former student of Martin Gantz school was seated at the president's table. Mrs. Clark was paid tribute by the entire gathering, and, during the program, was presented with a corsage of orchids.

First number on the program was a selection by the Mosely Sisters, a clever and talented singing duet. Mr. Cubbison then introduced Mrs. Sara Dana Falls Davis, who favored the gathering with several songs, playing her own accompaniment at the piano. James Fuller gave a violin solo, with Miss Catherine Fitzhugh at the piano.

Prof. W. A. Hoffmaster was called upon for remarks. He said that the old Martin Gantz school has been torn down and that only memories remain. He predicted that the reunion will have a long and flourishing existence because there is a comradeship among its members that present day school students do not have. He explained this by the fact that school classes today are larger and that students are constantly being transferred in and out of town and from one school to another.

Prof. Hoffmaster reminded his listeners that George C. Thompson, who was principal of Martin Gantz for years, once remarked that the "brightest boys and girls of New Castle attended Martin Gantz school."

"This crowd assembled here tonight," Prof. Hoffmaster continued, "is comprised of leaders in the professional and business life of New Castle. I think Mr. Thompson was right."

Mr. Cubbison brought forward, as a further feature on the musical part of the program, the Keystone Entertainers. This group of musicians, well known to New Castle, presented a number of excellent selections, including some old familiar favorites of the 90's.

Hannon Stirs Mirth

Hughey Hannon was allowed to be loose on the stage and kept "the house" in an uproar. He told some goodnatured jokes on Herb McIlvenny, Ed. Logan and Tom Dickey, then finished off with his own rendition of the "Little Red School House," with Judy Cypher at the keyboard.

Each of the following former teachers in Martin Gantz was introduced by President Dickey and given an enthusiastic greeting by their many former students:

Miss Ella J. McBurney, Mrs. Mollie Liebendorfer Stewart, Mrs. Ina Shoaf Porter, Mrs. Grace Kissinger Layng, Mrs. Eva Douds Campbell, Mrs. Edna Young Smith, Miss Margaret McKee, Mrs. Jennie Taggart Jones, Mrs. Olive Glasser Marshall and Bertha Houston, the latter of Whittier, California.

In addition, a few out-of-the-state guests were introduced. In addition to the California guest, Kentucky was represented by Mrs. Emma Johnston Lang, of Louisville, and Florida by Gertrude Falls. There were several present from Youngstown, Cleveland, Sharon, and nearby places.

Mrs. Lyda Jameson, one of the oldest students, and a regular attender at the school reunions, was called upon to stand. Mrs. Mary Wilder Clark, guest of honor, was also introduced at this time.

NOTED FORGER IS FOILED HERE

(Continued From Page One)

It had been certified by the Lawrence Savings & Trust company and was a personal check of Attorney Charles H. Young. It had evidently been stolen from Young's check book in his office.

Checking with the bank's saving department, Mr. George discovered, as Davis claimed, that he had a savings account with $48 on deposit. But the address he had given when opening it, was the personal quarters of the janitor of the Hileman apartments, Wallace avenue.

Further checking with the Lawrence Savings & Trust company upon Davis' insistence, it was found that the checks had been certified. He had forged, it was later discovered, a form the bank requires for check certification.

Other Checks Stolen

As Mr. George next turned to the telephone to call Attorney Young's office, Davis disappeared. Like a flash he was out of sight.

The check was held.

The bank warned today that Davis still carries with him 19 of Mr. Young's personal checks stolen at the same time.

A scratched-out number on the $1,250 check, Mr. George explained today, first aroused his suspicions and it was those pen marks that he couldn't understand. It is believed the number was scratched by Davis intentionally and with the thought that he was correcting an error which his hasty glance at Young's check book stubs had revealed. But it was his error and not Young's.

Warnings went out today to be on guard against his checks.

SPECIAL MESSAGE FROM PRESIDENT ASKS FOR ACTION

(Continued From Page One)

it is highly necessary for me to add, will always be open to those who seek justice, but they were not established for use by a few to enrich themselves at the expense of the many, nor to enable a few to harass and embarrass sovereign action by the government when taken for the benefit to all.

"Not only justice to the holders of our currency and of our securities who support and rely on our policy of equal and uniform treatment to all, but also the interests of our entire people require that the government of the United States make it clear that it cannot and will not consent to the use of its courts in aid of efforts to sabotage the operations of government or in aid of private speculation.

Makes Congress Control Certain

"This proposal reasserts and makes definite the control of Congress over the securities and money issued by the United States of America."

The administration's move to close existing loopholes which might make it possible for holders of gold clause bonds to sue for $1.69 on the dollar was taken following a White House conference participated in by Attorney General Cummings, Secretary of the Treasury Morgenthau, Solicitor-General Stanley Reed and Herman Oliphant, general treasury counsel.

Mr. Roosevelt was careful in his message to recommend "the immediate enactment" of the desired legislation.

The shops are full of white jackets to wear with your hot weather clothes. New models are being shown in moire. They are more dressy than the linen and cotton jackets, of course, and are particularly effective worn over black dresses with frilly jabots. A white hat would finish a costume of this character.

Galbreaths Present

Dr. and Mrs. A. A. Galbreath, of Rogers, O., the former of whom was president of the college and in whose memory, along with Dr. J. B. Bowman and Prof. M. E. Hess, the reunion was first organized, were present. Both Dr. and Mrs. Galbreath spoke feelingly of their days at the college and of how they appreciated these gatherings.

The organization of the reunion, twenty five years ago, was recalled by F. E. Brenneman, who recalled the first officers, President, A. Martin Graham, vice president, Alex Mc Conaghy and Mrs. Scott Hamilton, secretary and treasurer.

The reunion has grown in interest and size each year since then, and yesterday, all who were present were unable to obtain seats in the auditorium of the Presbyterian church. Many had to stand in the aisles and at the back of the church.

Recall Old Times

Dr. Harry Burns, Chautauqua lecturer gave an outline of his early training at the college and spoke of the friendly spirit which prevails at these gatherings.

Dr. Thomas George of Cleveland, paid a high tribute to the faculty of the old college and spoke feelingly of the early training he had received there.

Miss Hannah McCracken, the oldest member of the student body, was called upon and responded with some timely remarks.

Judge James A. Chambers, of New Castle spoke feelingly of the warm friendships he had formed while at the old school.

Prof. Galbreath recalled the athletic accomplishments of the students, and recalled many names which later became famous, among them the immortal Rube Waddell.

A vote of thanks was extended to the committee which had worked so hard for the success of the reunion, along with the officers and to the New Castle News for their splendid publicity.

Townspeople Assist

The people of Volant and the trustees of the church were warmly commended for their hospitality. Volant was gayly decorated for the occasion, and the homes of all the residents were thrown open to the visitors. It was a great day, and one that will be remembered by all present for many a day.

Mrs. Galbreath extended an invitation to the old students to visit their home at Rogers, O., for a day's outing some time in August, and the invitation was accepted.

A large crowd present yesterday was not composed of members of the alumni and former students at the college. There ere a great many former residents of the town present, and many relatives of former students in the gathering.

John Van Ryn Loses To Perry

One Of America's Hopes To Take Wimbledon Championship Falls By Wayside

(International News Service)

WIMBLEDON, Eng., June 27.—A valiant bid by John Van Ryn of New Jersey for tennis immortality failed today when he lost to Fred J. Perry, title-holder, in the all-England tennis championships 4-6, 6-1, 6-3, 10-8.

Van Ryn's victory in the first set thrilled the crowd, and while Perry took the next two easily, the champion was hard-pressed to finish the match in the hard-fought fourth.

In defeating D. H. Williams of England, Sidney B. Wood, chief American hope to take Perry's title, was not so impressive as usual. He made many errors, particularly in the second set, due to constant glances at the electric scoreboard showing progress of the Perry-Van Ryn match. The score was 6-3, 9-7, 6-2.

Clean Out Kidney Poisons

Wash Out Your 15 Miles of Kidney Tubes

If kidneys don't pass 3 pints a day and get rid of more than 3 pounds of waste matter, the 15 miles of kidney tubes and filters may become clogged with poisonous waste and the danger of acid poisoning is greatly increased. Bladder passages are difficult, which often smart and burn like scalding water and cause discomfort.

This acid condition, brought about by poor kidney functions is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Most people watch their bowels which contain only 27 feet of intestines but neglect the kidneys which contain 15 miles of tiny tubes and filters. If these tubes or filters become clogged with poisons, it may knock you out and lay you up for many months. Don't run any risk. Make sure your kidneys empty 3 pints a day.

fight for his own "share the wealth" program.

A battle to repeal the federal gasoline tax, the selected sales taxes on automobiles and other products and repeal of three-cent postage also was forecast as a part of legislative action on the president's program.

One tax question—extension of $501,000,000 of selected sales taxes beyond their expiration date, June 30—may be settled this week. While the House extended the levies for two years the Senate cut the extension to one year.

Doughton will launch the president's program by introducing a bill levying inheritance and gift taxes, graduated corporation taxes and higher taxes on big incomes.

He does not expect Congress to consider the president's proposal to levy a discriminatory tax on all holding companies this session.

Second, Lawence county is governed by the special Venango county act of many years ago and under this act no authority is given to the city treasurer to perform any duties other than inside, the city concerning city and school taxes.

Third, the new act says it shall take effect when every third class city in the state adopts it. Inasmuch as it appears doubtful that New Castle can adopt it due to the peculiar phrasing of the act and the provisions of the Venango County act the whole thing is up in the air. An attempt will be made at the meeting referred to to get the act clarified.

REAL SEX EQUALITY

THE leaders of the National Women's party, meeting in Atlantic City, are at least logical. We are familiar with the demand for equal pay and opportunity, equal right to hold property and equal authority in the home. But equal punishment for the same crime, equal alimony and equal rights in suits for breach of promise are concessions to the theory that her sex should be of no advantage to a woman. Court records show how women have got away with it in jury trials, having in this respect a distinct advantage over men. To condemn a woman to death for murder still arouses a fierce storm of denunciation. And how often has a divorced man ventured to ask for alimony, or, asking, received it?

Really it begins to look as if there would be no superior sex. One delegate at the convention boldly declared that she did not believe in heart balm, which has already been ruled out by law in some states. This has long been a mark of male inferiority. Few men have ever dared to demand it, but with women it has become a common thing. The equality would wipe out the distinction. It is a remnant, we are told, of the silly idea that women are dependent upon marriage for their livelihood. If this were ever true, it is not true now. On the contrary, the competition of women in business is becoming a serious matter for men.

The party seeks the creation of a bloc in all the states. The wisdom of this may be open to question. But it is something to have the women admit that men are their equals.

ALIENS WHO DO NOT BELONG HERE

The expected indictment by a federal grand jury in New York of a score of persons on the charge of illegally issuing naturalization papers to aliens has brought from the prosecuting attorney the statement that more than a million persons are living in this country under false pretences.

While the once tremendous flood of immigrants has been stayed by law, the loopholes for their entrance are many. Most of them seep in by way of Mexico and Canada. Others are foreign seamen who have deserted their ships.

Much has been said of late of the need of leaving some discretion to officials in cases where deportation would separate families. There may be some need of it. But it is clear that the great majority of those who are unlawfully here have been deliberate offenders. In their case there is no ground for clemency.

AUTOMOBILES ADD CHEER

Production has been the largest since 1929, members of the Automobile Manufacturers' Association in session at Detroit are told, the figures being based on factory sales reports and estimates for the last half-year, indicating a yearly total of 3,525,000 cars and trucks. Exports of cars to foreign countries show a gratifying increase.

Naturally much of this advance must be credited to replacements of old cars, visual evidence of this being presented on all highways, where new road construction competes for attention with advances in truck transportation. Behind this condition stand the heavy industries—steel, rubber, lumber, with plate glass, copper, aluminum and petroleum as auxiliaries. Much of this material must be transported by railroads, which thus share in the benefits. As one of the indices of returning properity the revival of these co-ordinated industries plays a leading role.

The time for blaming the automobile for social ills of various kinds has gone by. Its recreational value can be observed in its literal sense. Superficially, especially to the most users who would like to have the roads to themselves, the automobile is a menace and a bother, taken in mass. But the statistics of the industry as a whole make cheerful reading. A nation that insists on going out riding, with the family, with Sunday as the high spot, is not by any means in a hopeless way.

GARBO YEARNS FOR THE SOIL

Those who are inclined to be captious may find reason for disagreement in the declaration of Greta Garbo that "The things which have to do with the soil are the only things which are pure, fine and wonderful."

However, there can be no legitimate quarrel with her urge to get back to nature. Such a desire seems to figure prominently in the yearnings of many successful people who have long contended with materialistic problems and, having wrested substantial profits from their contacts with labor, trade and commerce, are inspired to rise into a rarified atmosphere.

This is a natural inclination and, in fact, is commendable, though it is difficult to work up any high degree of enthusiasm over Miss Garbo's plans to raise carrots, potatoes and radishes. After all, there are better things that come from the earth, such as strawberries, sweet corn, and June peas.

But, quite probably, Miss Garbo's remarks are just a little persiflage of the variety handed out occasionally by important personages to impress upon their public the fundamental simplicity of their natures and their tastes.

We doubt if Miss Garbo will ever turn a hand to the raising of carrots or kindred products of the garden. Notwithstanding her complete dissatisfaction with Hollywood's emphasis upon the "box office" and her own disposition to rise above such sordid considerations, she will probably return to Hollywood from her native Sweden quite soon and will offer her talents in return for large financial rewards, not for the joy of practicing her art.

The stage seems to be set in China so that the Chinese will not have even a "Chinaman's chance."

There are fears that the Dionne girls are a little backward. Notwithstanding the financial possibilities, they have not yet endorsed a face cream.

Jellyfish, according to scientists, have not changed in 250,000,000 years. This imperviousness to change is also one of the characteristics of legislators.

So far as we know, there is no nation with a sense of law and order so highly developed as that of Japan. At the present time, Tokio has whipped itself into a fever heat of excitement over bandits as far away as North China.

SOMETHING FOR NOTHING

I'm the fellow who was a terrible drag on the chain letter business. I didn't send any letters out. Didn't get any dimes. Didn't help a bit... And my conscience hurt.

Once, despite dire threats of bad luck, I threw one of those American-colonel-in-France good luck chain letters in the waste basket—and nothing happened.

I have a friend who got in on the 50-cent chain letter and got $42 in the mail...His conscience hurts him, however, because he knows his mathematics and he realizes that out at the end of the chain 84 men and women will be out the 50-cent pieces he received.

I never did win much. Once, when I was a youngster, I won a pair of new shoes in a drawing....But when I had by heart set on winning a shiny set of carpenter tools for solving a jig-saw puzzle—sitting in a hardware store and working it right in public—I foozled something awful ....and haven't gotten over it yet.

Once I tried guessing the number of beans in a big jar in a drug store window and came within 89 beans of being right....Another time I sold packages of bluing around the neighborhood to win a guaranteed sure-shot air rifle, but I forget the end of the story.

And once I spent a week in close companionship with a dictionary, trying to make the most words out of the letters in a breakfast food name, but somebody else made a thousand more words than I did—and I never did see how it was possible.

And again and again I've had a vague idea of competing in one of those essay-writing contests....But I never did, because day-dreaming is easier than doing.

I know a little girl, right now, who thinks she's going to win a big chunk of money for being able to read the autographs of motion picture stars and getting EVERY ONE RIGHT ....and she said she'd give me half. ....It must be in the blood.

AVOID MALICIOUS GOSSIP

Are you so very much better than those whom you call "back fence" gossipers?

About the only difference is that you choose some other place to gossip.

Some may choose to talk in their back yards but you circulate rumors and evil reports at society events.

Is there any difference in the damage done?

Due to its being more public, possibly your way of talking before a larger gathering is more harmful.

Why do you so seldom tell complimentary things?

Why always something unsavory?

Why try to pry and delve into the affairs of others till you find a rich morsel of scandal.

Why run to repeat it?

The worst gossipers are those who question children about family matters of which they would not dare ask the parents.

It is surprising to note the class of women who will indulge in such strategy to find out the private affairs of their friends and neighbors.

Avoid those who do it and keep your own skirts clean in not showing too much curiosity about matters that do not concern you.

Can you do it? Are you doing it?

YOUTH

The old are tiring at their tasks
Behold their slowing pace!
This busy world forever asks
Fresh youth for many a place.

Onward the generations come
With sure and certain stride,
When age finds duty burdensome,
To keep the ranks supplied.

Behind the leaders, one and all
Their young successors stand
Waiting and ready for the call
To manage and command.

However great or strong there's none
Who, if but turn he will,
Can see the youngster coming on
Who soon his place will fill.

Oh boy, be patient and prepare!
Some day if well you do,
Gladly an older man out there
Shall give his post to you.

The World At A Glance

Past History Recalled.
Republicans And Federalists.
Shall We Deport Millions.

Central Press
New York Bureau
235 East 45th street

By LESLIE EICHEL
Central Press Staff Writer

NEW YORK, June 27—Some of the younger Republicans who have been reading American history have cautioned the Old Guard to go more slowly on saying that everything President Roosevelt suggests is "unconstitutional." The younger men point out that Mr. Roosevelt may be maneuvering the Republicans to extinction. The president is a student of American history.

Under Presidents Jefferson and Madison, the Federalists, corresponding to the Republicans of the present day, opposed every measure as unconstitutional. Finally, they went to absurd lengths, tried to thwart the will of the people and the growth of the nation—and went to extinction.

The Federalists had become merely a negative party.

* * *

JEFFERSON'S VIEW

In after years, Thomas Jefferson, surveying the rise of the Jeffersonian Republicans (the present day Democrats) and the fall of the Federalists, wrote these comments to John Adams:

"One of the questions . . . on which our parties took different sides, was on the improvability of the human mind in science, in ethics, in government, etc.

Those who advocated a reformation of institutions, pari passu with the progress of science, maintained that no definite limits could be assigned to progress.

"The enemies of reform on the other hand denied improvement and advocated steady adherence to the principles, practices, and institutions of our fathers which they represented as the consummation of wisdom and the acme of excellence beyond which the human mind never could advance."

SIX MILLION DEPORTEES?

Representative Dies of Texas is sponsoring a bill "to deport 6,000,000 aliens as a partial solution to the unemployment problem."

The immigration department says there are only a few thousand illegally entered aliens in the United States, thus the bill probably is aimed not at illegally entered aliens sa much as the unnaturalized Americans.

There probably are many reasons why persons who came to the United States have not been naturalized. The process of naturalization is not an easy one.

But suppose six million persons were bodily shipped out of the United States?

It would be one of the largest enforced movements in the history of the world.

It would strike virtually every community in the United States.

It would disrupt families, businesses, even governmental functions.

The purchasing power of six million persons would be destroyed. More than that, the purchasing power of their families, their dependents, their business associates might also disappear.

The history of countries that have driven people from their borders has been one of destruction.

Ask which city or which state how many hundred thousand people it will give up to England or to Ireland or to Italy or to Germany or to Hungary or to Russia or to South America, and the citizens will believe one crazy.

* * *

OLD THEORY

There is an old theory, which has been domolished by many economists but which crops up as a superstition during hard times, that too many hands make poverty.

In the meantime vast areas of land remain untilled, cities are plagued with tenements, food rots for want of market, while at the same time factories stand idle, goods pile up and builders remain jobless.

Could it not be possible that the more hands, the more mouths, the more ideas, the more likely we shall have a return to normal supply and demand?

Actually, the United States, to utilize its resources, requires 125 million more persons, authorities on the subject say.

The founding fathers, we gather from their papers, looked forward to constant migration to America until it became the most densely populated Caucasian nation in the world.

An they visioned that would bring prosperity and democracy.

It may be only a few years hence that America will be pleading again for immigrants to man its lands and its industries. And that is not a capitalistic observation. Nor is it, on the other hand, socialistic.

It is realistic.

EDITORS' OPINIONS

R. B. McNitt, managing editor of the ably edited Evening News of Southbridge, Mass., asked American editors five questions concerning amendments to the constitution and federal control. Here are the questions and the answers:

1. Do you think the people of your state would approve an amendment to the constitution giving federal government power to regulate conditions of labor and industry? Yes, 8%; No. 87%; Doubtful 5%.

2. Is your newspaper inclined to support such an amendment? Yes, 10%; No, 87½%; Doubtful, 2¼%.

3. Is there any appreciable sentiment in your state in favor of denying the supreme court the power to declare acts of congress unconstitutional? Yes, 11%; No, 86¾%; Doubtful, 2¼%.

4. Do you think it likely that employers in your state are sufficiently favorable to maintaining wages, hours, fair trade practices, and other provisions of the NRA codes, to justify the hope that a new and constitutional recovery act would work, through the instrumentality of voluntary codes? Yes, 57%; No, 31%; Doubtful, 12%.

5. Do you believe another newspaper code desirable? Yes, 11½%; No, 87%; Doubtful, 1½%.

The World AND THE *Mud Puddles*

SUCH LANGUAGE.

"Well," said the department head, who was a little cross that morning. "I'm glad to notice that you are arriving punctually now."

"Yes, sir. I've bought a parrot."

"A parrot? What on earth for? I told you to get an alarm clock."

"Yes; I did. But after a day or two I got used to it and it didn't wake me. So I got a parrot. And now when I go to bed I fix the alarm clock and put the parrot cage on top of it. What that bird says when the alarm goes off would wake up King Tut himself!"

THURSDAY, JUNE 27

Today's Yesterdays—June 27, 1725—Christian Heinecken died in Lubeck, German, at the age of four, one of the most remarkable of history's prodigies.

He began to talk when an infant and conversed intelligently on subjects when 10 months old. He began reading the New Testament when 15 months old. At 2½ he could answer any question in ancient or modern history or geography. In his third year he spoke Latin and French as well as his native German. Yet he was so frail that he was never weaned, and his life could not be saved.

June 27, 1776—An American soldier was executed for the first time by the Army. Twenty thousand persons gathered in the Bowery, New York, to see Thomas Hickey hanged for mutiny and treason.

He had conspired to assassinate Gen. George Washington, blow up the magazines, surrender the city and end the rebellion against the British.

June 27, 1829—James Smithson, son of the first Duke of Northumberland ,died in Italy at 75, after having resolved that his name should "live in the memory of man when the titles of the Northumberland and Percys are forgotten."

The Smithsonian Institution keeps alive his name today, and who ever hears of the Northumberlands and Percys?

June 27, 1836 — Claude Joseph Rouget de Lisle died of the effects of starvation, destined to be immortalized as the composer of La Marseillaise, which became the French national anthem during its revolution.

But Rouget was no revolutionist. To the contrary he was a royalist and loyalist whom the revolutionists ruined and imprisoned. He called the song, 'Chant de guerre."

Writing Wrongs—You're wrong if you believe:

That Helen Keller was born deaf, dumb and blind.

She wasn't. She was normal until she was 19 months old, when an attack of scarlet fever destroyed her sight, hearing, speech and sense of smell.

That she is the only person so afflicted ever to learn to speak and become a highly educated person.

She isn't. Her instructor, Anne Sullivan Macy, used methods developed by Prof. Samuel Gridley Howe in instructing Laura Bridgeman, whose affliction was more severe than that of Miss Keller and who was just as famous in her day.

That "you can't teach an old dog new tricks," i. e that an adult cannot learn as easily as a youth.

This isn't true. It has been established by the American Association for Adult Education that oldsters are more eager to improve their mental processes and do so with greater ease and speed than children when opportunities are afforded them

Child Beater Given Year In Virginia Jail

Harry Gregory, 37, Of Alexandria, Va., And Wife Are Both Sentenced

(International News Service)

ALEXANDRIA, Va., June 27—The back of Harry Gregory, 37 year old convicted "baby beater" was unscathed today because police Judge James R. Duncan gave him a chance to escape a beating—a chance he, himself, had denied his three-and-a-half year old adopted daughter, Rosemary.

Neighbors testified both Gregory and his wife Jean, 19, unmercifully lashed the hapless child. They admitted their guilt because "she cursed" but denied the punishment they inflicted was unduly severe.

Gets Year in Jail

Since this state has no whipping post law for wife and child beaters, Judge Duncan sentenced the wife to 60 days in jail and gave the husband the choice of one year in jail and work in the road gang or be lashed at a public whipping post.

"I'll take the whipping" Gregory quickly replied.

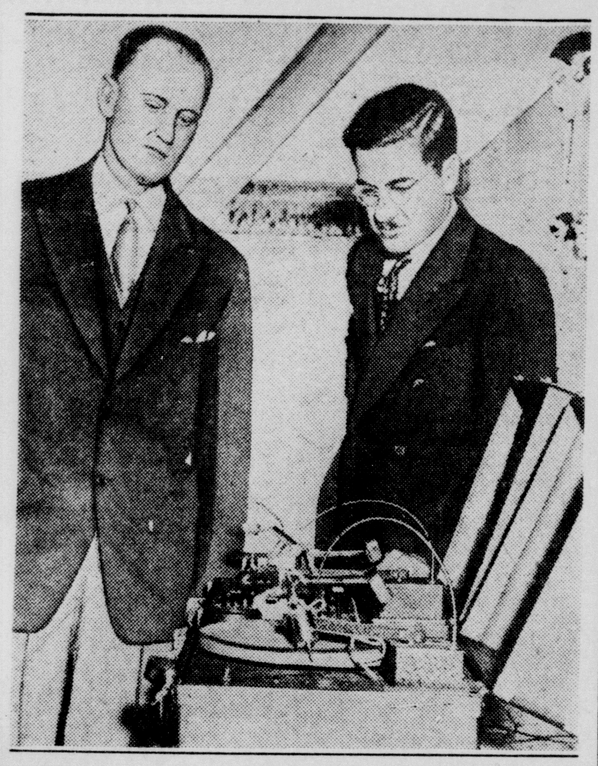

But he got a change of heart while the arrangements for his whipping were being made and the crowds started to gather. He heard the court had obtained a huge bullwhip and it would be wielded by the most muscular member on the police force.

Judge Duncan was deciding how many lashes would be necessary to cover Gregory's legs with as many welts that cover the limbs of the helpless child, when the cringing Gregory sent word he had changed his mind and wanted to serve his jail sentence.

Local Job Office Prepared To Help Unemployed Youth

Federal-State Bureau Has Own 'Junior Division' Set Up Already

New Castle's Federel-State Employment office will be ready to play its local part in President Roosevelt's new National Youth Arministration, should it be called upon to do so, Supervisor Edward D. Reese announced today.

Speaking of the new help-the-youth program, for which the president appropriated $50,000,000 yesterday, Reese commented.

"That's a fine move. Youth between 16 and 25 are needing encouragement today because the 'nobody needed. sign flashed repeatedly in the face of young graduates can't help but give them the wrong attitude at the start.

"We have registered in what we call a junior division many of the graduates of high schools and colleges who are now unemployed and will have the names ready whenever any supply of jobs arises. The girls and boys are classified on our files and we know what they want to do."

Reese said the office made preparations for caring for the young unemployed some time ago.

He could not say what developments will come from the president's announcement but did point out that local office stands ready if a chance comes for it to cooperate.

*750 Motorists said "You're On"—and Gulf Clicked!

TO GIVE you an idea of what you can expect from That Good Gulf Gasoline, we made this experiment . . .

We invited 750 motorists—average owners of average cars—to buy Gulf for 3 weeks and judge it themselves.

They agreed—drove Gulf in their own cars under all kinds of conditions—and reported on 5 important points: (1) mileage (2) starting (3) pick-up (4) power (5) all-around performance.

Seven out of ten voted Gulf superior on one or more of these points. Many voted a straight Gulf ticket—found it better in all 5 ways!

Gulf won because it's 5 *good gasolines in one.* It is controlled to such accurate refining limits that it gives you not merely 2 or 3 important qualities—but *five!*

Try it in *your* car for 3 weeks. We'll wager you'll climb on the Gulf bandwagon.

OFFERED $3,000 FOR FISH FAMILY

(International News Service)

PHILADELPHIA.— Aquariculturists—or those who make fish breeding their passionate hobby—are ready to hand the palm to Gustav G. Armbuster of this city.

Armbuster succeeded in spawning more than 250 of those rare and exotic gems of the collector's aquarium, the discus fish, or, scientifically, the symphysodon discus-Heckel. But more important, he kept 75 of these delicate natives of the Amazon river alive.

Today he has been offered as much as $3,000 for the parents and their offspring, but Armbuster refuses to sell. He wants to learn how they grow, he says, and besides, the parents are ready to breed again.

REJECTS GIFT OF MILLION

(International News Service)

LONDON.—Here is a man who is calmly and decisively turning down a gift of one million dollars.

He is not crazy either, he's Chancellor of the Exchequer Neville Chamberlain.

Lady Houston, wife of the late shipping magnate, wants to give it to him but he doesn't want it.

She offered him the million dollars cold cash "for the air defence of London," but the Chancellor has declined because of the "conditions and implications attached" to the offer.

Lady Houston, who is renowned for her patriotism and philanthropy, recently offered a like sum for the building of speed planes to defend the Schneider Cup when the government declared that the cost of defending the trophy was prohibitive.

Chancellor Chamberlain says he will gratefully accept the sum as a contribution towards general Exchequer revenue. But Lady Houston wants it to be used for aerial defense.

And there the matter rests.

The Chancellor recently accepted $2,500,000 as a Jubilee gift from an Indian Prince—for the Singapore defenses.

MYSTERIOUS LIGHT FROM HEADSTONE IS BOSTON SENSATION

(International News Service)

BOSTON.—Nightly, hundreds of persons motor to Bennington Street Cemetery in East Boston, where a headstone marking the graves of two sisters, sends out a golden glow which can be seen a hundred yards in any distance, a phenomena which baffles the curious.

At day time it is just a read-stone bearing the names Elizabeth and Mary Bithell, who were buried in 1902 and 1928, respectively. It is of ordinary brown stone, highly polished and smooth surfaced. It stands about 4 feet above the ground, and tapers off to a peak.

As night falls, the headstone sends off a pale, dull glow of golden color. Persons have failed to find a street light or some other light that would cause a reflection on the stone, which is the only one of that particular type or substance in that locality.

Ask Highway Improvement

Seek Widening Of "Death Highway" Between Tarentum And New Kensington

(International News Service)

PITTSBURGH, June 27.—Plans were under consideration today to bring about an improvement of one of the most dangerous pieces of highway in the state, near here.

The narrow "death highway" between Tarentum and New Kensington bridge is the roadway under discussion. It has cost the lives of 121 persons and injuries to hundreds of others during the past decade. The plan is to widen the narrow roadway.

At a conference of officials and business leaders, C. M. Barr, Allegheny county commissioner, termed action in blaming the commissioners for the condition of the road as "unfair and vicious." He said the road is a state and not a county highway.

Widening of the road has been promised by the state highway department in its highway program, provided the county pays for the necessary property damages to gain rights-of-way.

Boarders Object To Noise Of Mill

PLYMOUTH, Mass.—Just as all persons concerned in the welfare of a local woolen mill were about to sing "Happy Days are here again," opposition brought to bear by three women of the neighborhood, who run a summer boarding house, caused the plant to close nights.

Although the plant had sufficient orders on hand to operate at night and employ 22 additional weavers, the women threatened to go to court because the noise of the machinery made for sleepless nights for the boarders. The boarding house is having a good business, too.

"JIMMY" BRADDOCK ADVISES ALL WEAK RUNDOWN FOLKS TO MAKE THIS SIMPLE TEST!

. . . And See Yourself Why It Was So Easy for Him to Add 26 Lbs. And Gain So Much New Strength and Energy

You, Too, Must Add 5 Lbs. in 1 Week This Quick Way or Pay Nothing

Take the advice of the new World's Champion—"Jimmy" Braddock—if you are weak, rundown, underweight and ailing. After searching for years, he at last found the quick, scientific way to build up rugged new strength, good solid pounds of hard flesh and dazzling energy. In 6 weeks before the fight he gained 26 lbs.

He says: "Tests convinced me that rundown conditions, poor blood and skinniness come frequently from iodine-starved glands. When these glands,—particularly the important gland which controls weight building—lack NATURAL PLANT IODINE (don't confuse this with ordinary chemical iodine), even diets rich in fats and starches fail to add weight and produce energy. That's why skinny folks often have huge appetites, yet stay skinny."

With the discovery of Kelpamalt—a mineral concentrate made from a huge 90-foot sea plant harvested off the Pacific coast, you can now be sure of your needed ration of plant iodine in concentrated, easy to take form. 1300 times richer in iodine than oysters, Kelpamalt helps your food to do you good, build rugged strength, add weight and banish fatigue. Its 12 other minerals stimulate the digestive glands which produce the juices that enable you to digest fats and starches. 3 Kelpamalt tablets contain more iron and copper than 1 lb. of spinach or 7½ lbs. of fresh tomatoes, more iodine than 1,386 lbs. of lettuce, more calcium than 6 eggs.

Start Kelpamalt today. Even if you are "naturally skinny", you must add 5 lbs. the first week or the trial is free. Costs but little to use.

County Treasurer William O. Pitts reports tax collections yesterday amounting to $8,496.64. This was one of the best days so far this year, and was due to a large payment by the Bessemer Limestone Company.

"Please refrain from discussing politics in this office", is the latest notice posted in the county commissioners office. We'll try, but we don't know much else to talk about.

Viewers Homer C. Drake, Alex Marn and George Hettenbaugh have filed a report at the prothonotary's office, favorable to the vacation of sections of two roads in Scott townships. The sections are on the East Brook-Harlansburg road, and the road leading from the Perry Highway, South of Harlansburg to West Liberty. Changes were made in the roads when improved by the state highway departments.

Bonds secured by mortgages of the Home Owners' Loan Corporation are not subject to the newly enacted documentary stamp act, according to a ruling of the Department of Justice. This is on the theory that one branch of the government cannot tax another. Individuals, however, who in the mass, comprise the government will have to dig down in their jeans for the stamp tax.

In an address at the Pennsylvania Bar Association convention, now in session at Bedford Springs, Pa., Scott M. Loftin, of Jacksonville, Fla., president of The American Bar Association, called upon all the jurists and lawyers of America to perpetuate the constitutional government of the United States. "It is only through the vigilant and earnest work of an organized loyal profession that the liberty and freedom of the nation can be assurred," he declared.

Evelyn F. Amberson of Edenburg, R. D. 1, has presented a petition to court for a decree changing her name to Evelyn F. Amberson Von Huenefeld. She gives as a reason association with, and sentiments for, one named Ehrenfeld Gunther Von Huenefeld. The court has ordered publication of the request, and has fixed September 3, as a time for hearing objections, if any, to the petition.

Hearing before viewers, Attorney J. Roy Mercer, Alex Main and George Hettenbaugh, were held at the court house yesterday on the petitions of James N. Pattison and other of Union township, for damages to the Pattison properties by reason of widening and improving the New Castle-New Bedford road, near the Scotland school house. Owners of the properties claim that some of their land was taken when the road was widened and that valuable fruit and shade trees were destroyed. The viewers will hand down their decision later.

Juvenile Parole officer J. M. Dunlap has presented a petition to court, asking that an order made May 7th, 1933, under which five children of Ackles De Lorenzo, were committed to the Margaret Henry Home, be revoked, as the parents are now living in Pennsylvania and the father has agreed to keep the children at his home in Cleveland, Ohio, where he is employed. The mother of the children is living in Cincinnati, Ohio, so that both the parents are residents of Ohio. Mr. Dunlap said that he had visited De Lorenzo, in Cleveland some time ago, and he wanted the children to remain at the Margaret Henry home until school was out. The children were recently taken to Cleveland. Judge Hildebrand revoked the order of May 7, '33 and dismissed the case.

ESTRANGED COUPLE RECONCILED!

Young bride's discovery brings married pair together again

THEIRS would be an ideal marriage, they had boasted. No petty quarrels for them! But how differently things had worked out! Here they were living apart—estranged.

It had all happened because of washday. She had worked so hard, rubbing and scrubbing the clothes—and then he had complained that his shirts weren't white enough!

Every Monday was a nightmare. Her back ached from hours over the washboard. Her hands (of which she had been so proud) were red and swollen. She was tired, irritable. They quarrelled . . .

Like many others, they might have remained apart—but a friend brought them together again. She told the young bride how Rinso *soaks* clothes 4 or 5 shades whiter—saves scrubbing and boiling. She told her how clothes last 2 or 3 times longer this safe, scrubless way.

So she made up with her husband and they started all over again. Washday is no problem now! She lets Rinso do the hard work—and she's never tired or irritable from scrubbing. For with Rinso she just soaks—rinses—and hangs out a gleaming, snowy wash. And her hands are white and pretty as the day she was married!

* * *

Why don't you try Rinso? You'll be thrilled to see how much time and work it saves. You'll like its rich, creamy suds so much — you'll use them for dishes and all cleaning. Ask your grocer for Rinso *today*. It's wonderful in washers, too.

Work in Progress on Couzen's "Homestead Plan"

Green Lake Hills clubhouse.

Senator Couzens

Tractors at work.

Senator James Couzens of Michigan has backed up his disagreement with the Roosevelt administration's ideas of the subsistence homestead plan with a $550,000 gift to the government to help establish a workingmen's homestead project on the outskirts of Pontiac, Mich. Senator Couzens objected to the word "subsistence" because he believed it implied placing the workers in a position of "permanent poverty". The Green Lake Hills clubhouse, shown above, will be the community center of the project. Tractors already are breaking up fields to get the soil in preparation for extensive farming operations by the colonists next year.

NIXON SIGNS UP NAVAL RECRUITS

Federal Recruit Officer Already Has 11 Of July's 38 Enlisted

Naval Recruiter M. L. Nixon announced today that 11 of his July enlistment quota of 38 men have been signed for naval training. The July quota for his district, embracing six counties, was first set at 50 but later reduced to 38.

Nixon, with offices in the Federal building, was recently notified to recruit 50 men a month from his territory. With the reduction of the July figure, the August quota has been boosted to 52.

Until December, according to information now on hand, he will be asked to enlist the 50 men a month.

OLD BOYS ARE NEEDED

"When men call for combat," said Hi Ho, the sage of Chinatown, "they exempt those who are too old to fight and yet wise enough to give counsel. So I sit humbly on my doorstep and mutely wonder."

SPELLING OF "PITTSBURGH"

The final "h" was officially added on July 19, 1911, by the United States geographic board in response to petitions from local officials and numerous citizens who desired to have the name of their city spelled "Pittsburgh."

Illinois State Senate Committee Makes Report On "Red" Probe

(International News Service)

CHICAGO, June 27.—The "Stars and Stripes" above the University of Chicago was officially free from any "red" stain today.

A state senate committee reported after several weeks of investigation that charges of subversive and communistic teachings on the campus were unfounded. It was recommended, however, that Prof. Robert Lovett of the English department be retired for his communistic activities. Lovett denies being a communist.

Another professor, Frederick L. Schuman of the political science department, was let off with censure by the majority of the committee, for having participated in receptions for communist political candidates.

A dissenting minority report signed by Sen. Charles W. Baker, charged communism was not only tolerated on the campus but pervaded the classrooms with a crimson glow.

When four of the five on the committee announced the report closed its investigation, Baker promptly wired Congressman Samuel Dicstein of New York suggesting a congressional inquiry of the school.

He declared in support of his charges that the school authorities are even now sponsoring a "red week" celebration with a program of speeches in one of the school buildings by high officials of the Soviet government and industry.

(International News Service)

LOCK HAVEN, Pa., June 27. — Search for two missing Clinton county girls who disappeared last Thursday ended today when they were picked up by a detail of state highway police from Philipsburg.

From there they made their way to Chester Hill, Clearfield county, to stay with a friend.

Miners-Operators To Resume Talks

New Wage And Hour Contract Will Be Discussed By Special Committees Tonight

(International News Service)

WASHINGTON, June 27.—Negotiations for a new wage and hour contract between miners and operators of bituminous coal, will be resumed tonight, when a special committee of miners and employes will report to the entire Appalachian conference.

The miners demand a new contract limiting the work to 30 hours and giving them a ten per cent increase on the present $5 daily basic wage. The operators want an extension of the contract which expires Sunday, calling for a 35 hour week at $5 per day.

Contract Extended

The contract actually expired on April 1, but has been extended twice, once through the old NRA and once by intervention of President Roosevelt.

John L. Lewis, president of the United Mine Workers, threatens to call a strike of the 400,000 soft coal miners unless the contract is signed, but it is the opinion of observers there will be no strike, at least until congress acts on the soft coal control bill of Senator Guffey (D) of Pennsylvania. This action is expected early in July.

"Robinson Crusoe' Beach Brought To Life By Air Route

Huge Radio Towers Now Rise From Lonely Sand Dunes

(International News Service)

HONOLULU—With the linking-up of America, Hawaii, China and Japan by a rapid Pacific ocean air service, some of the least known spots in the world have become of paramount importance.

In Hawaii a desolate breach of sun-white sand has been chosen as the "ears" for the giant Sikorsky aircraft that will soon be winging their way weekly, or even daily, on their long flights that will bring the great Pacific centres within a few hours' travel of one another.

Mokapu beach no longer resembles the fabled beach of Robinson Crusoe and his man Friday; instead four huge radio towers now rise from the sand dunes. These are the wireless direction-finders and Mokapu is heralded as the most up-to-date aircraft radio station in the world.

In addition to the four towers, three other structures have been erected, housing the direction-finding apparatus, the receiving station, and the sending station. The three transmitters of 1,000 watt power each will be constantly in touch with the "skyliners", and the direction-finder will determine the exact positions of the machines in flight.

When the company officials were seeking a site for their modern "lighthouse" they started excavations some few miles from the present site. After their excavations had yielded 12 human skulls they were assured by the Hawaiians that nothing but bad luck would result if they built on the spot, as the spirits of the dead would haunt them.

Not wishing to have their instruments used for receiving messages from another world, the company selected a less eerie spot which, though lonely and desolate when chosen, has within a few weeks become one of the busiest spots in the Hawaiian Islands.

Because farmers withheld their grains from the markets, hoping for better prices, the government of Hungary has had difficulty in fulfilling contracted deliveries to Italy and Austria this season.

Becomes Historic Document

TO THE CONGRESS OF THE UNITED STATES:

As the fiscal year draws to its close it becomes our duty to consider the broad question of tax methods and policies. I wish to acknowledge the timely efforts of the Congress to lay the basis through its committees for administrative improvements, by careful study of the revenue systems of our own and of other countries. These studies have made it very clear that we need to simplify and clarify our revenue laws.

The Joint Legislative Committee, established by the Revenue Act of 1926, has been particularly helpful to the Treasury Department. The members of that Committee have generously consulted with administrative officials, not only on broad questions of [illegible] important and difficult tax cases.

On the basis of th[illegible] Internal Revenue taxes by officials of th[illegible] also to maintain the current rates of impo[illegible] which, under the present law, would be reduced. [illegible] them that I considered such taxes necessary to the financing of the Budget for 1936. I am gratified that the Congress is taking action on this recommendation.

Franklin D. Roosevelt

THE WHITE HOUSE,
June 19, 1935.

Message of President Roosevelt to Congress, asking for laws to distribute wealth more widely, is already taking its place as one of the most historic of American state papers. Here are reproductions of the beginning and end of the original manuscript.

WILDCAT OIL WELL MAKES 8,000 BARREL

(International News Service)

MEDICINE BOW, Wyo.—An 8,000 barrel-a-day oil well brought in 8 miles west of here was declared by oil men to be the greatest "wildcat" strike in the state since the Salt Creek field of 20 years ago.

A strong market for the product is anticipated as a result of the apportionment of $10,000,000 for highway construction in Wyoming in 1935. A large part of this money will be spent for "black oil" such as that produced by the new well, which is used for surfacing.

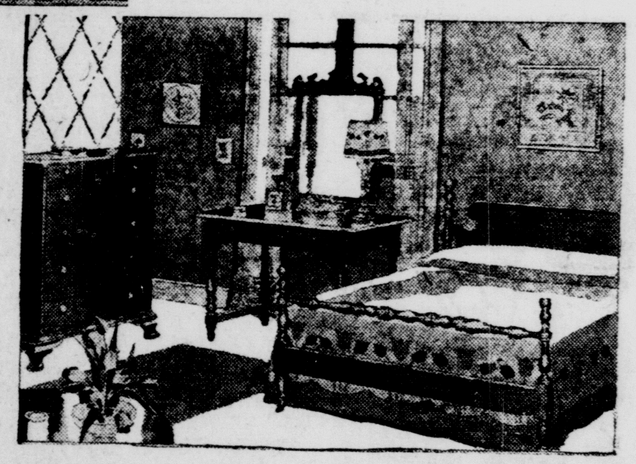

When you open canned milk pour it into a glass jar. Cut off the wrapped or label and put it around the jar with a rubber band. If the milk sours you can safely use it for cooking, especially for sour cream cookies or biscuits.

Milk Control Council Formed

Northeastern Dairy Conference Forms Council To Regulate Milk Industry

(International News Service)

BOSTON, June 27.—Aimed at coordinating the work of regulating the milk industry in ten states, a milk control board council was formed today by the Northeastern Dairy Conference which also adopted a resolution favoring appropriation by congress of $40,000,000 for the control of bangs disease and mastitis in 1936 and 1937.

The council will be made up of members of state control boards of Maryland, New Jersey, New York, Pennsylvania and the six New England states. Joseph C. Cort, administrator and member of the Massachusetts Milk Control Board was named secretary of the council.

The council, which makes its first report in September at a meeting in Springfield, was urged to study interstate compacts as a possible means for regulating the industry.

Tonight the special singers will be D. C. Wheale and Russell Haggerty, Dorothy and Ralph Flaugher. Two Sunday school classes will be represented.

AUTO RADIO

HARRISBURG, Pa.—Pennsylvania in 1934 had 1,729,490 pleasure vehicles and commercial vehicles registered. If all of these vehicles were operated at one time on the 25,000 miles of improved roads on the Pennsylvania State Highway System there would be sixty nine vehicles to each mile. If evenly distributed on the roads each car would have seventy six feet of road. This, of course would utilize only one traffic lane. An equal number could be accommodated with similar spacing on the opposite lanes.

SYMBOL OF GREATEST STRENGTH

The Rock of Gibraltar, most famous peninsula in the world, known to millions of people as typifying strength and protection.

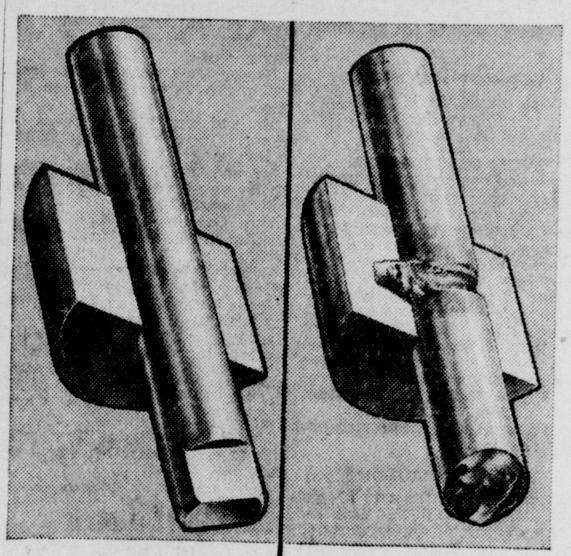

STRENGTH BRINGS PROTECTION

— and your automobile engine needs the strongest possible motor oil to give it the greatest possible protection against wear.

3 times stronger

ATLANTIC MOTOR OILS

• *This test-bearing was protected by High Film-Strength* ATLANTIC MOTOR OIL. *It remained smooth and unscored at pressures of greater than 7½ tons per square inch.*

• *This bearing was lubricated by another oil with a national reputation. The oil film was ruptured, and the bearing badly scored, at pressures of about 2½ tons.*

NEW High Film-Strength . . . the spectacular new property of ATLANTIC MOTOR OILS . . . allows these oils to resist pressures of 7½ *tons per square inch* without rupture of the oil film. 3656 tests of 67 kinds of motor oils, including well-known brands, proved that they have a surface-protecting film 3 *times stronger* than the average.

The two test-bearings at the left were subjected to identical tests in the Almen Film-Strength Testing Machine . . . developed by General Motors in its search for new ways to reduce mechanical wear. Just notice how they came through!

ATLANTIC'S New High Film-Strength should definitely *minimize* wear in YOUR engine. These remarkable new oils hold their lubricating qualities at *high engine temperatures* . . . giving *added protection* in hot-weather driving. And they form less sludge even than before.

Your car *deserves* the new protection of ATLANTIC MOTOR OILS. Fill your crankcase today.

Fifteen-Year-Old New Jersey Boy Is Accused Of Slaying

PIPE IS WIELDED AS BOY'S WEAPON

(International News Service)

ELIZABETH, N. J., June 27.—A fifteen-year-old boy was held by police here today charged with slaying his father.

He is John Jurey, a vocational school pupil. Detectives arrested him after he allegedly had beaten to death with a length of iron pipe his father, Nicholas Jurey, 48, as the climax of an altercation between the pair.

According to the police, long smouldering trouble between the father and his son broke out last night in the presence of the boy's mother and two younger sisters. At the height of the argument, it was said, the elder Jurey picked up a sickle from a pile of tools and started for the boy. John ran into the rear yard with his father after him, police said the boy told them, and as the father cornered the youth in a section of the yard, he picked up the pipe and struck the older man over the head.

'Shorts' Approved For Pittsburgh

(International News Service)

PITTSBURGH, June 27. — In Pittsburgh, "shorts" may be worn with impunity, as long as they are worn in good taste and common sense.

As the old skirts vs shorts for women battle began its traditional summer revival, the abbreviated costumes were given the approval of a majority of society women, sportswomen and clubwomen. For good measure, they were even approved by Ralph E. Griswold, director of city parks.

While the abbreviated costumes are "quite the thing" for tennis, they have not yet been accepted for golf, although they are worn in occasional instances.

Youth In Eight Countries. We Know How To Spend. Surprise For Fairbanks, Jr.

By ARTHUR BRISBANE

H. P. BURTON, editor of **Cosmopolitan Magazine**, publishes in his July number eight short articles on "Youth Today" in America, England, Italy, Russia, China, Japan, Germany and France, that intelligent young Americans and their fathers and mothers should read. Concerning American youth, Herbert Agar writes:

"Youth wants a CAUSE to believe in, wants something practical to do. This is the great difference between youth today and youth in 1920."

To believe in a good cause, and fight for it, is desirable. There was something also in the old-fashioned plan of believing in YOURSELF and working to prove your belief justified.

American youth, according to Mr. Agar, believes that "big things are brewing." So they are, but only young people that WORK will share in that brew.

UPTON CLOSE tells about Japan's modern youth.

Three Japanese peasant boys signed a death pact, each with his own blood, then:

"At dawn, carrying heavy charges of explosives, making them veritable human bombs, the walked deliberately into the Chinese barbed wire defenses and touched themselves off with matches.

They blew themselves to bits, blew up the Chinese barbed wire, and tens of thousands of patriotic Japanese visit a shrine dedicated to the "three human bombs." There is a pleasant thrill in that, for every boy.

THERE IS AN UNPLEASANT thrill in the next paragraph:

"Again, three groups of young men—civilian students, naval cadets and army officers—shot the 77-year-old premier of the empire."

Mr. Upton Close, who writes about Japanese youth, finds that:

"The youth of Japan today drinks and dances and exercises a freedom in social relationships never indulged in before. It dresses beyond its means. It is swept by sex mania. It is aesthetic, poetic and sensitive almost to the point of mental unbalance. More love suicides take place in Japan per capita than in any other country, and the victims are for the most part pitifully immature."

PERHAPS MR. BURTON will get some Japanese to criticize that article. It is hard for an outsider to write of youth in another country.

The article about Russian youth reminds you of the interesting fact that "some sixty million Russian boys and girls—more than the whole population of France or England—have been brought up since the revolution." A 60,000,000 batch of youthful humanity that every minute of its life has been told what it must think, taught to hate capitalism and worship the embalmed body of Lenin. How long will he, artificially preserved, survive the ideas forced on Russia? How many of the 60,000,000 will help destroy his tomb, when the tide turns? Read those eight short articles on eight different kinds of "youth." You will find them worth while.

UNCLE SAM is learning to spend. A few lines tell you that the Bankhead bill, making the government guarantee a loan of one thousand million dollars to help tenant farmers buy their farms, is passed. No fuss or excitement about it.

Senator King wanted to cut the one billion to two hundred millions, but was "shouted down."

Do you recall the excitement when Theodore Roosevelt wanted to build the Panama Canal for two or three hundred millions?

Now "one billion" is almost "small change."

DOUGLAS FAIRBANKS, JR., and Laura LaPlante, surely you know her, after work on the set near Monte Carlo's gambling room, dressed up and presented themselves for an evening's entertainment.

The doorkeeper said bluntly:

"You work in Monaco, so you may not enter the gambling rooms. That's the rule."

To their amazement, they did not enter the gambling rooms, although young Mr. Fairbanks is said to have threatened to buy the whole institution.

MONTE CARLO wisdom is in that rule. The casino spreads money among Monaco's inhabitants, but will not take the inhabitants' money, and so avoids trouble.

Another wise ruler is Mr. Bradley, who owns the tourists' "wide open" gambling house at Palm Beach, but will not allow natives to lose in his place. When you gamble, you know, you lose. If you do not know it, try.

THE OLD New York Herald of many years ago wrote this line above an item about the assassination of President Lincoln:

"Important if true."

The same line might be put over the news cabled from London:

"Hitler has given a solemn pledge that Germany will never again resort to unrestricted submarine warfare."

Sir Bolton Eyses-Monsell, first lord of the admiralty, says so.

Germany once gave a solemn pledge never to invade Belgium, and the allies solemnly declared, after the first use of poison gas, that THEY never would be guilty of such barbarism, but they were guilty, and they are all manufacturing poison gases now.

If war returns, each country will do exactly as it pleases. "Solemn pledges" are for peace times.

THE WAGNER labor dispute bill, as originally written, included this amendment:

"Nothing in this act shall abridge the freedom of speech or of the press, as guaranteed in the first amendment of the Constitution."

That has been stricken out.

The Constitution seems to be going out of fashion. Some statesman, some day, concerning the Constitution, may offer a resolution along the lines of the humorous Congressman, who once moved to amend the ten commandments by striking out the word "NOT."

KIDNEY MISERY THING OF PAST

Suffering Stopped When He Discovered Into-Vin Medicine

MR. HOOVER L. HENRY, of 429 Pear St., Harrisburg, says: "My kidneys simply kept me in CONSTANT misery, in fact, I was so stiff and sore in my back when I got up in the mornings that I could hardly EVEN WALK, and I had to keep rising with my kidneys all night long, which broke up my sleep and rest. I tried everything under the sun but nothing helped me until I got Indo-Vin and it has done me more good than everything else PUT TOGETHER. My kidneys are acting in a normal manner now, I can go to bed and sleep and don't have to keep getting up and down all night and I don't have and kidney misery in my back. This medicine is a 'wonder' and I gladly endorse it." You can now get Indo-Vin at Eckerd's drug store, here in New Castle and from all good druggists throughout this whole section.

Demand For Farms And Prices Rising

(International News Service)

DENVER.—A definite improvement in the demand for farms is indicated in land sales by the Federal Land bank of Wichita.

In 1933 the bank sold 167 farms and ranches at an average price of $8.06 an acre. In 1934 it sold 137 at an average price of $11.16 an acre. In the first four months of 1935 it sold 94 farms and ranches (at at the rate of 282 a year) for an average of $13.39 an acre.

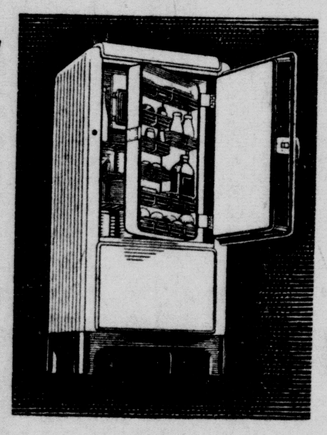

This increase in prices occurred despite the drouth situation prevailing over much of the farming area of the Ninth Farm Credit district, which made special selling efforts inadvisable.

Zella, who with her parents, Mr. and Mrs. Lester Gill, had been acquitted of charges of complicity in the slaying of Charles E. Gable for which Strawser was sentenced to death, was accompanied by Sheriff Carl E. Runkle, deputy sheriff Robert Diffenderfer and Miss Hattie Bowersock, the matron.

Strawser's final plea for clemency will be heard by the senate pardon board in July.

Women Mob Belle Who Stole Mates

(International News Service)

KISHINEW, Rumania—Fourteen women are under arrest in the village of Calancea, near Kishinew, for having revenged themselves on Ecaterina Groman, belle of the district.

The men of Clancea swarmed round Ecaterina like hungry flies over a plate of honey. They courted her, bought her presents and neglected their own wives.

So, the furious village women stormed Ecaterinfa's house, poured vitriol-oil over her face, dragged the blinded and disfigured woman in the street and stoned her to death.

Although more than 100 women participated in the revolt against the village Messalina, only 14 were arrested.

Council And School Board Will Fix Treasurer's Salary

County Not Included According To Opinion By City Solicitor

City Solicitor Robert White today rendered to council an opinion relative to a new act of assembly relating to the collection of city, county, school and poor taxes in cities of the third class and the compensation for the city treasurer for his duties as tax collector and for deputies, clerks and assistants. Under the act their compensation is to be fixed and paid jointly by the city, county and school district.

White's opinion points out that the new act says "nothing in this act shall be construed to repeal any local or special law providing for the collection of county taxes by county treasurers"

According to the solicitor, County Solicitor William McElwee stated informally recently that collection of taxes in Lawrence and Venango counties is provided for by a special act.

Under this interpretation the city council and school board, according to White, will meet and arrange the salary of the incoming treasurer, which can be set at any amount from $3,500 to $5,000, for New Castle.

White's opinion will be read in council meeting Friday.

Boy Dramatically Gains Hearing

Eleven-Year-Old John Tracy Suddenly Hears For First Time

(Copyright, 1935, By International News Service)

HOLLYWOOD, June 27.—There is great rejoicing in the Spencer Tracy family today. John Tracy, son of the film star, has heard spoken words for the first time in his life.

It came about dramatically, yesterday, as the boy and a group of little friends were celebrating his 11th birthday. In the midst of the party, John, who has been deaf from birth and whom dozens of specialists have despaired on aiding, suddenly ran to his mother and cried out:

"Mother, I heard someone say 'Sussie'!"

Susie is the name of his sister.

Excited but scarcely daring to hope, Mrs. Tracy tried out several other words on the youngster. He was able to distinguish "father" and "horse". Fearing he was unconsciously reading from her lips, the mother blindfolded him and repeated the test. He still understood the three words.

Mrs. Tracy is the former Louise Treadwell of New Castle, a daughter of A. W. Treadwell, now of San Diego, Cal.

Choral Society Picnic At Park

Cascade Park Event Last Evening Brings East Side Group's Season To Close

Perfect weather assisted in making the first annual picnic of the East Side Choral Society, conducted in Cascade Park Wednesday evening, a resounding success.

Guests, 68 in number, were seated at a grove table at 6:30 o'clock and a delicious picnic dinner was served. Later there were treats and games for the children and an old-time sing for the grown-ups.

The Choral Society has been progressing wonderfully during the past year under the able directorship of Charles Harris, East Washington street, with Mrs. James Chapman as accompanist. It has made numerous public appearances and has received praise and commendation from all who have heard it.

Last night's picnic success is due to a great extent to the work of Mrs. Charles Harris, Mrs. James Chapman, Mrs. Garid Davies and Mrs. Clara Bowen. This marked the last gathering of the society until the first week of September, when rehearsals will be resumed in the Third U. P. church.

James Gravenstreeter, gold palm Scout of troop V-37, New Castle, and Mr. Beerbower will meet the chief in Youngstown, O. He will be a guest at Sunny Crest.

LET US MAKE YOUR 4TH of JULY TRIP SAFER

BEFORE you start on your holiday trip, let us completely inspect your car. There is no charge for this service and it will assure you of a safer and more enjoyable trip.

For the motoring convenience and safety of car owners Firestone has established more than 500 Auto Supply & Service Stores throughout the country, and thousands of Firestone dealers are also equipped with Auto Supplies and complete Service Departments to test and service your tires, brakes, batteries, spark plugs, wheels, ignition system, carburetor, in addition to lubricating your car with the most modern power equipment, also crank case service, washing and polishing.

AVOID THE DANGER OF BLOWOUTS

Firestone removes the danger of blowouts by preventing their main cause — internal friction and heat. This is accomplished by Gum-Dipping, a patented extra process which soaks every cotton cord and insulates every strand with pure liquid rubber. No other make of tire is Gum-Dipped.

THERE ARE THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY:

1 *"Will the tread give me the greatest traction and protection against skidding?"*

— Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes.

For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death. This is undisputed evidence that Firestone gives car owners greatest protection against skidding.

2 *"Are they blowout-proof?"*

—Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Kelly Petillo won the race and broke the record over this 26-year-old rough brick track without tire trouble—in fact, not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles in 23½ hours, at an average speed of 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection ever known.

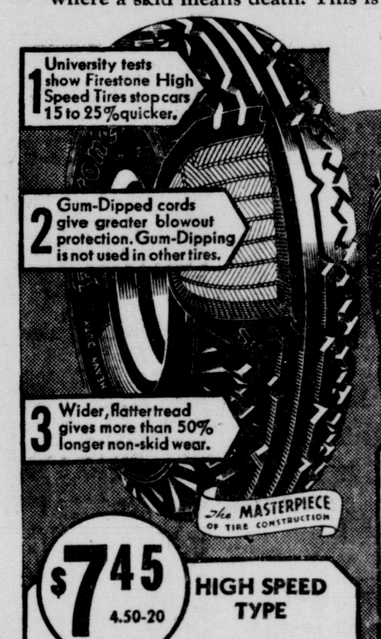

3 *"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"*

— Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher shoulders and a wider, flatter contour. This thick, rugged, scientifically designed tread is held securely to the Gum-Dipped cord body by Firestone's patented construction of two extra layers of cords under the tread. This is a special construction feature not used in any other tire. Unequaled mileage records by thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.

Equip your car with a set of Firestone Gum-Dipped Non-Skid Tires, the safest tires ever built and avoid the dangers of skidding and blowouts.

Whitcombe Shoots Brilliant Golf In British Tournament

(International News Service)

MUIRFIELD, Scotland, June 27.—With a glittering 68, four under par, Charley Whitcombe, British professional, led the field as the second round of the British open golf championship drew to a close today, Henry Cotton, defending champion, faltering on the last nine holes to finish in a tie for second place with Alf Padgham, another Briton.

Both finished with 142, three strokes behind Whitcombe, with Padgham taking a par 72 and Cotton a 74 after having a sub-par 35 to the turn. Cotton not only was co-medalist at the close of the qualifying round, but led the first round yesterday with a 68.

THIS OUGHT TO BE HUNTERS' PARADISE

(International News Service)

SVERDLOVSK, USSR.,—Wanted, a Pied Piper! Thousands of squirrels have invaded Sverdlovsk and are destroying roofs, telegraph poles and the like with their sharp teeth while the authorities have no way so far to dispose of them. All the squirrels arrived in the city from the West, and zoologists here believe it to be a mass immigration such as has not hitherto been recorded.

DONATION ASKED FOR STATE CAPITOL

(International News Service)

TILLAMOOK, Ore.,—A program of donations, benifit dances and other charitable means of acquiring funds is being advanced by G. S. Gray as a means of building a new state capitol to replace that destroyed by fire. In addition to avoiding increased taxes, Gray said his method would tend to give the residents of Oregon greater pride in their capitol building than they would have otherwise.

STILL IS BANNED FROM SHOW WINDOW

(International News Service)

ATLANTIC CITY, N. J.,—David W. Volpin, a liquor dealer here, had at least a novel idea on how to attract trade. Volpin's plan was to set up a still on his display window. Its operation, he figured, would intrigue customers. "The public is not languishing from the lack of such education," declared D. Frederick Burnett, state Alcohol Beverage Control commissioner, in refusing permission for the exhibition.

$10,000 TAX CHECK GIVEN GLAD HAND

SCRANTON, Pa.—"When a man bites a dog it's supposed to be news. When taxpayers have $10,000 handed to them I claim it's still better news," proclaimed Associate City Solicitor John R. Edwards as he proudly brandished a $10,000 creck which had just been handed to him by Frank E. Rodgers, secretary-treasurer of the Scranton Transit Company. The money represented the company's 1935 annual franchise payment to the city.

Miners Return To Their Jobs

Mine No. 5, Near Leesburg, Resumes Operations This Morning

GROVE CITY, June 27.—Striking miners of Springfield Township were back in the pits of the No. 5 workings of the Sharon Coal & Limestone Co., today, following a settlement between the local union and company officials of an issue which had closed the mine since Monday morning. The strike affected 325 men who left their work and picketed the mine as a protest over alleged discrimination against union workmen.

The strike was called by officials of the local union, United Mine Workers of America, and was joined by practically all the employes. The company made no effort to operate the mine during the controversy, and no disorder was reported. The strike did not affect the men employed at No. 2 Mine nearby where the same company employes 400 men.

LANDMARKS IN PRAGUE

One of Prague's most ancient landmarks is the Powder gate, built between 1471 and 1516 as an entrance to the old fortified town. Hybernska street and Prikopy street from the busiest traffic corner in Prague.

AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m. June 27, two arrests on charges as follows: Disorderly conduct and resisting an officer 1 and selling without a license 1.

With the arrest of a man who sold goods here without a license yesterday police authorities again demonstrated they propose to protect local merchants and those who do pay license. The man placed under arrest yesterday was fined by Mayor Charles B. Mayne.

A journey around the city shows that many of the traffic signs need repainting. Some of them are so weather-worn that they are scarcely distinguishable. A survey of this condition by police officials will no doubt result in their taking immediate action to have paint brushes wielded.

City Solicitor Robert White today stated that within the near future members of council and the school board will meet and decide what salary shall be paid the incoming city treasurer, who also acts as the school treasurer. He said that so far as he knows the officials of the city, county and school board are not at sea as Attorney McElwee, counsel for the county commissioners, has informally given them an opinion in which he said the new state act relating to city treasurers collecting county taxes does not apply in Lawrence county. The collection in Lawrence and Venango counties was provided for by a special act and the new law states that it shall not apply where there is a special act.

NATURE PRESENTS—

Gibbon

WHERE FOUND
Southeast Asia

PHYSICAL FEATURES
Thirty inches long, legs 12 inches, arms 24 inches; small, round head with large eyes; round, slender body with thin, muscular limbs and abnormally long arms; long hands and feet; coarse fur; no tail. Color—black, often with yellowish white hair around face and on hands and feet.

SPAN OF LIFE
Usually under a year.

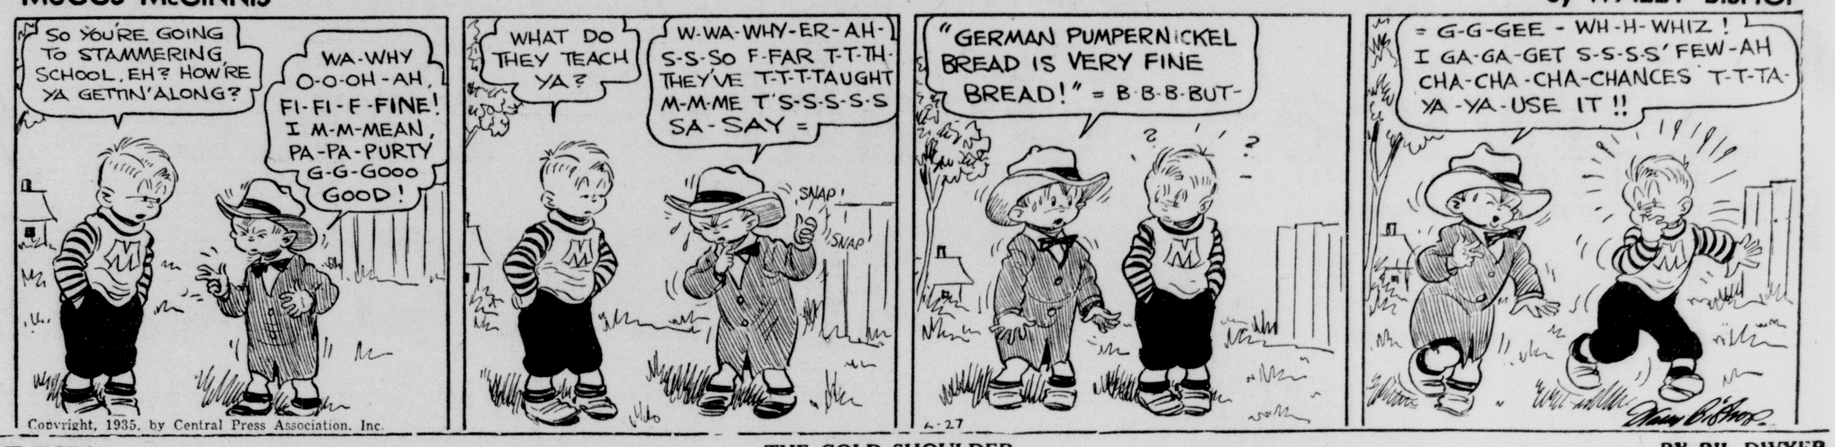

FOOD
Fruit, birds and leaves.

OFFSPRING
One.

Smallest of the man-like apes, the gibbon is the greatest gymnast in the world. A remarkable climber, he almost flies through the air from bough to bough, often leaping 30 feet, and is so quick that he can catch a bird on the wing. When he walks, he holds his arms above his head to balance himself. Unlike other monkeys, the gibbon grasps a rope with the two hands reversed and is therefore ready to spring quickly in either direction. Affectionate and gentle creatures, they have powerful voices and a troop crying in concert can be heard a mile away with their deafening din.

Lordly Hawk Constructs Nest At Old Post Office, Roof Inspection Reveals

So far as the public knows the old post office at North Mercer and North streets has had no occupants since December, but a United States inspection engineer from Washington discovered yesterday that a lordly hawk, or a bird closely similar, has deemed the building's quiet roof conductive to home building.

Climbing to the roof, W. Y. Brady, assistant district engineer from Washington, and George F. Mitchell, custodian at the Federal building, found the bird's nest on the flat roof. Two eggs are in it. They described the bird as "a big fellow with a wing spread of almost 18 inches." It was left undisturbed.

Brady, stopping here for only a short time, was here to ascertain the old building's condition. He is submitting to his department an estimate for putting the building in shape again. His visit was considered a routine one, for he inspected the Federal building as well.

Since December, when the new post office was opened, the old building has been closed.

Radicalism Is Under Attack

Congressman And Educator Speak Against Radicalism At Veterans Session

(International News Service)

PITTSBURGH, June 27 — Two speakers, an educator and a congressman, today voiced a warning against radicalism before delegates to the sixteenth annual state encampment of Veterans of Foreign Wars, meeting in Wilkinsburg.

Congressman James L. Quinn urged the veterans to "work for the redemption of America," saying:

"We all know the horors of war—you men better than I. But there is a different kind of warfare going on today, a conflict of social and economic problems."

Teachers who spread communistic doctrine in public schools and colleges were singled out for criticism by Col. C. Blaine Smathers, superintendent of the Pennsylvania soldiers' orphans school, Scotland, Pa. He said of such teachers:

"Some of them are not even citizens. They should be sent back where they came from."

The convention was opened by a joint session between delegates representing 30,000 veterans and representatives of the ladies auxiliary.

GIANTS HANDS CUBS DEFEAT

By TONY PUGLIESE
International News Service Sports Writer

NEW YORK, June 27—In the second western invasion of the polo grounds concluded yesterday, no team was able to gain the edge on the fast travelling New York Giants although the Cincinnati Reds held up their end of the trip with an even break in the six games series. The Giants won twelve while losing six for a .667 percentage.

At the polo grounds yesterday, Hal Schumacher, Giant hurler, turned in his tenth victory of the season when he defeated the Cubs 5 to 2, and made it three out of five over them. In the eighth, the Giants aided by Mel Ott's 14th homer, scored three runs and salted the game away. The two Chicago runs were the first the Cubs scored off Schumacher all year, after seventeen consecutive scoreless innings against him.

Rookie Hits Homer

In Brooklyn, Jimmy Bucher's homer with Phelps and Bordagaray aboard in the tenth inning, his fourth hit of the day, gave the Brooklyn Dodgers a 7 to 5 victory over the St. Louis Cardinals, and dropped the Cardinals to third place.

Jimmy "Rip" Collins obliged with his 17th four master of the season.

George Watkins with a pair of homers and two singles, driving in six runs, led the Phillies to a 12 to 5 win over the Cincinnati Reds. The Phils made 14 hits off a trio of Red hurlers, while three Philly hurlers held the Reds to eight. Dolph Camilli and Eval Goodman, also homered.

Pirates Win Two

Aided by good pitching performances by Guy Bush and Bill Swift, the Pittsburgh Pirates took both ends of a double bill from the Boston Braves 4 to 2 and 5 to 1. Manager Bill McKechnie was banished from the game for protesting vehemently over a homer by Pep Young in the opener which two umpires ruled fair, but which he and the crowd insisted was foul. Bush held the tribe to six hits in the opener and Swift let the Braves down with four in the second. The twin win put the Bucs in second place, as the Cards lost.

The only scheduled American League game between the Detroit Tigers and the Chicago White Sox was washed out.

CYCLONES WIN IN 18TH INNING

Before a large crowd, the Cyclone mushball team won its tenth straight victory of the season, defeating the strong Strollers, Wednesday, in an exciting 18 inning tilt, 5-4.

Christopher won his own game by smashing out a long ball to left field.

The summary:

Cyclones 000 021 000 000 000 002—6
Strollers 200 000 010 000 000 000—4

Batteries: Cyclones, Christopher and Greer; Strollers, Gunther and Kennedy.

Umpires—E. Ostrosky and Greer. Scorer—B. Rohrer.

Radiators-Davis Will Resume Game

Soft Ball Commissioners Order Game Resumed With Radiators At Bat In Fifth

At a hearing held at the "Y" last night by the New Castle Soft Ball association, the Board of Commissioners of the league orders the Radiator-Davis game to be resumed in the fifth inning where it was stopped by Umpire Wilson at the Radiator Field last Sunday afternoon.

The Davis team was leading the Rads 1 to 0 in the fifth when Umpire Wilson gave the game to the Rads when he found pitcher Lyle Nimmo using resin. Wilson erred in his judgment, and for that reason the hearing was held last night, at the call of President Walther.

The Capitola game also stopped by Umpire Wilson and awarded to the Rads will stand, as awarded.

Considerable depends on the outcome of this Radiator-Davis game. The game will be resumed Monday night at 6 o'clock at the Radiator Field. If the Davis team defeats the Rads, and St. Andrews wins Friday night over the Keystones at B. & O. Field the first half title will go to the Saints.

As the situation now stands, the Radiators, St. Andrews and Unions are still in the pennant race, the Radiators with 14 and 3. The St. Andrews with 14 and 3, and the Unions with 13 and 4. The Unions have a postponed game with the Saks to play.

The umpires for the game at the Radiator field next Monday night will be the same as handled the game last Sunday Wilson behind the plate and H. Smith on the bases.

St. Andrews Tops Tolans Team 2 To 1

One Of Best Soft Ball Games Of Year At Gaston Park

Bob Pascarella and Herman Morris hooked up in a soft ball hurling duel at Gaston Park Field last night that has the fans talking today, the Tolans had five hits and the Saints had four hits. The final score was 2 to 1 in favor of the St. Andrews team and keeps them in the running for the first half title in the league. Pascarella whiffed 14 of the Tolans.

Gray had the only extra-base hit of the battle, a double. Bob Pascarella helped to win his own game with a couple of scoring singles. The game goes down in the record books as one of the best ever played in this city. It was a close battle in every inning, with the Saints doing all of their scoring in the fifth and the Tolans in the sixth.

It gives St. Andrews 14 victories and three defeats. Friday night the St. Andrews team will play the Keystones at B. and O. field in a postponed league game.

Heavyweights Stay Clear Of Bomber Louis

Maxie Schmeling Or Maxie Baer Are Only Two Willing To Meet Dusky "Killer"

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, July 27—There seemed to be more than a vague suspicion today that Joe Louis, the colored man with that strange, cold, animal eye, had punched himself right out of work the other night, as one by one, the leaders of the heavyweight field sought refuge in evasions, subterfuges and outright flight.

James J. Braddock, the champion who is minding the title until next year, enthusiastically promised to meet Louis just as soon as possible, meaning any time at all before 1940. Louis, it was announced by the Twentieth Century Sporting Club, had been matched with Max Baer for September, but there was a catch in it. It seemed that Baer hadn't yet been matched with Louis—or at least so his manager, Ancil Hoffman said today. He said Baer's hands were so bad that they would need four months rest. He didn't say anything about Baer's head.

Up To Schmeling

That narrowed the field down to Max Schmeling, the former champion, and in this case we seemed to be getting somewhere. Manager Joe Jacobs will take the match. Joseph you see, doesn't have to take the punches.

He cabled Schmeling, promising him $100,000 for his end, and will sail for Germany on Saturday. If any match is possible for Louis now, after the way he mercilessly slayed Carnera in the sixth round the other night, this is it. It all depends on whether Schmeling's cupidity exceeds his discretion.

The white men, you see, are not drawing the color line. They simply are "percentaging" Louis right out of all purses. If he wants Schmeling in September, for instance, he'll have to take 25 percent and let the German have 35 or there'll be no dice. Louis it seems is only the man who is going to draw them in.

Half Million

They expect to do a half million with it at $25 tops. The Baer fight would do even better but it now seems unlikekly that it will be made this year—or any other. There's hardly encugh money in the world to pay a man for getting hit the way Carnera was on Tuesday night.

Baer, of course, should give the colored man quite an evening, because the former, if right, can still take a punch with considerable abandon. But if he can't fight any better than he did against Braddock a meeting with Louis just wouldn't be humane.

'Nickel Swims' At Y Pool Draw Crowd

Girls Ad Boys Alike Find Dips Refreshing; Pay Nickel For An Hour

Sixty-one boys and 55 girls are taking advantage this week of the Y. M. C. A.'s "nickel swims" and each week the nickel-an-hour dips are becoming more popular. Each summer the Y sponsors swimming for the nickel rate for boys and girls who could not otherwise afford to enjoy the indoor pool.

Under competent supervisors, the boys, between 10 and 18 years, and the girls, between 10 and 16, swim in separate classes. No instruction is given and the youngsters can splash to their heart's content.

Miss Ruth Miller is directing the girls while Roger Meermans is handling the boys.

Classes for boys are held Mondays, Thursday and Fridays while the girls swim only on Wednesdays.

UNIVERSALS LOSE

Universals of the West Side lost to the West Side Midgets in a baseball game yesterday by a score of 25 to 18.

HERE AND THERE IN SPORTS' LAND

President Alec Samuels moved toward the protection of umpires in the Lawrence county baseball league when he suspended Centerfielder Markey of West Pittsburg for a period of five games. According to reports, Umpire Ben Price was watching a close play at the plate when Markey, upon the spur of the moment, according to club officials, raced from the bench, gave the umpire a push and he toppled over. The action was reported to league officials and Samuels meted out the punishment yesterday.

The Louis-Carnera fight which was won by Detroit Joe in six chapters, was unique in several ways; first, there was no broadcast from the ringside, and second, no motion pictures were taken of the fracas. Out of the fight has come the opinion that if Louis should fight Max Schmeling in his next encounter the German is due for a lacing and there are many who hold the same opinion that Louis will win if he meets Champion Braddock. It isn't probable that Louis will box either Max Baer or Braddock this year. Baer's hands are bad and Braddock wants to cash in on the fruits of his victory over Baer. Incidentally, it might be explained that hurry sometimes causes an error such as occurred in this column yesterday. Having selected Braddock to lose to Baer we were glad to be right on the Louis victory. However, the column yesterday said we favored the Detroit boy to lose, which isn't the case, and which can be seen by reading Tuesday's column which said: "Having gone wrong on the Baer-Braddock fight it may seem somewhat hazardous for us to favor Louis. . . . Louis is reported to be a masterful boxer and we're pinning to the belief that the boy from Detroit will come through." He did in a sensational manner.

It is quite apparent that in France they take their sport and writings seriously as London reports that Jean Borotra, tennis star, has accepted a challenge to a duel mailed him by one of France's deadliest swordsmen—Didier Poulain, French tennis writer. It appeared Poulain wrote something that Jean didn't like and Jean answered Poulain. It concerned Borotra's refusal to aid France in the Davis cup singles this year after which he played in the singles at Wimbledon. Previously he did play in the doubles for France but Australia won from France in the singles. Hence the words and now perhaps, the swords. But that's on old French custom; swords for two at dawn.

After an eight-game big league career during which he batted 323 and showed signs of natural slugging talents, Edward J. Moriarty of Holyoke, Mass., rookie second baseman, has resigned from the Boston Braves to enter the priesthood. Moriarty, who was graduated from Holy Cross last week, soon will begin a five-year course for the priesthood in a Montreal seminary, according to the Boston reports.

SAMUELS PLACES MARKEY ON BENCH

Center Fielder Markey of West Pittsburg, Lawrence County Baseball league, was suspended for five games by President Alec Samuels yesterday. He was alleged to have shoved Umpire Ben Price to the ground while the umpire was making a decision in a recent game.

Boston Braves Will Be Sold

Judge Emil Fuchs Will Ask $450,000 For Boston Braves Franchise In League

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, June 27.—By Aug. 1 Judge Emil Fuchs will have severed his connection with the Boston Braves and the club will be under new ownership.

From the most reliable sources, the writers today learned the following facts in connection with the disposal of the club.

1—$450,000 will buy the club, lock, stock and barrel.

2—The First National Bank of Boston, which holds much of the stock as security for loans, will not ask more than $100,000 cash as an initial payment.

3—Joe E. Brown, the wide-mouthed movie comedian, is definitely a bidder for the club, but is merely fronting for a certain big movie magnate.

4—Louis O'Malley, of the O'Malley associates, a Boston advertising concern, has made no bid but is interested and will talk over the situation today with Ford Frick, president of the National League.

5—If no purchaser has been found by Aug. 1, an unlikely contingency, Charles Adams, majority stockholder, will take over the Fuchs interest.

6—Despite reports to the contrary, no New Yorker has bid for the club. There are half a dozen bidders, including O'Malley and Brown, but Ford Frick refuses to name the others.

The league is eager to have the Boston situation straightened out.

The $450,000 asked for the club might even be shaded considerably for the right buyer.

In this connection it was said Babe Ruth would not be listed as a "right buyer." Owners of other ball clubs make no secret of the fact that they have "soured" on the Babe.

Million And Half Fish Are Stocked In Pymatuning

MEADVILLE, June 27.—An unofficial report that 1,502,315 fish of different species were stocked in the Pymatuning during April and May was made at the June meeting of the Crawford county branch, Sportsman's Council, at Cochranton.

B. L. Audette, divisional director of the branch at Linesville, said that pike perch, yellow perch, sun fish, adult black bass, crappie bass and wall-eyed pike were included in the stocking list. Eight hundred twenty cans of pike perch averaged about 1,200 to the can formed the largest number of any species.

A truck load of crappie bass, about 5,535 fish, was stocked by the state of Ohio.

Henry Picard Flashes Form

Hershey, Pa., Golfer Rushes Into Tie For Second Place In British Open

By F. A. WRAY
(International News Service)

MUIRFIELD, Scotland, June 27—Henry Picard, willowy young American from Hershey, Pa., today came rushing home through the final holes in a sub-par 34 to score a 73 in the second round of the British open golf championship and range well up with the pace at 145. He had a par 72 yesterday, four strokes behind the leader, Henry Cotton and three behind the next two, MacDonald Smith and Alf Perry.

He almost caught Perry, whose 75 today left him in temporary possession of the lead at 36 holes with a total of 144, while Smith was none too impressive over the first nine this morning taking thirty eight strokes. Cotton, meanwhile, was scheduled for a late start.

Three Way Tie

Tied with Picard at 145 were Aubrey Boomer, France, and Robert Sweeney, American amateur who reside in England. Boomer vouchsafed the low round of the day so far, a 69, while Sweney, going to the turn in a sparkling 35, finally finished with a 73. He played the first eight holes in perfect pars and then shot a birdie at the ninth.

Boomer's 69 was made possible by a remarkable performance over the final eight holes which were negotialted in three under par with birdies at the eleventh, fifteenth and eighteenth and pars the rest of the way. In all, he had five birdies during the round and missed par only at the fourth and tenth.

He started the day behind a 76 in the first round yesterday.

Little In Form

Picard's revival on the back nine can be traced to a return of his putting touch, for he sank long ones for birdies at the eleventh and thirteenth and, except at the home hole, was putting for birdies all the way.

The young American had barely reached the club house when W. Lawson Little, amateur champion of America and great Britain, hit the ninth in a sub-par 35, including birdies at the third and ninth holes. Little scored a 75 in the first round yesterday, so started well behind the pace this morning.

Big Leaguer To Become Priest

Eddie Moriarty Quits Boston Braves And Will Enter Priesthood As Career

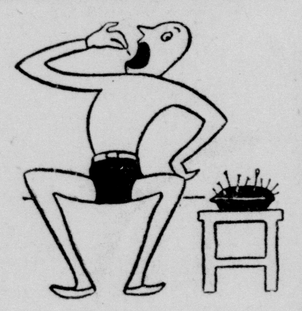

(International News Service)

BOSTON, June 27—Eddie Moriarty, captain and second baseman of this year's great Holy Cross team, today turned down a promising professional baseball career with the Boston Braves for a religious life.

Moriarty, whose spectacular hitting has been the highlight of the Braves games since he signed up after graduation last week, was at his home in Holyoke where he plans to prepare for examinations to enter Grand seminary at Montreal.

He turned in his uniform at the end of a double-header with Pittsburgh, his decision coming as a great surprise to Manager Bill McKechnie, President Emil Fuchs and members of the club. Since joining the Braves he has batted for .324.

"For years I've thought about becoming a priest," said Moriarty. "I was undecided until yesterday whether it would be baseball or the priesthood and I decided on the latter which has been my vocation since early boyhood.".

Crawford County To Get Ringnecks

One thousand baby ringneck pheasants from the Jordan Game Farm will be shipped into Crawford county within a day or so, if enough runways can be secured in that county to care for them. It is planned to give the young pheasants a little more care before turning them out on their own resources in the woods.

In asking for runways for the birds the Meadville papers have appealed to farmers to loan any available runways so that the birds can be cared for at least two more weeks. The birds will be placed in care of those loaning the runways and the state will furnish the feed for them.

Powdered Resin Will Be Allowed

Soft Ball Commissioners Approve Of Powdered Resin For Soft Ball

Powdered resin will be allowed in the New Castle Soft Ball league due to a strong recommendation made by the Board of Commissioners Arnold "Fiz" Fraser, Norman Buckingham and Lawrence Conti last night at the meeting held at the Y.

The resin must be in a bag or sack at the jurisdiction of the umpire in charge of the game. The resin must be made available for both teams.

Powdered resin is used to dry the hands. There is no way to "doctor" a ball with powdered resin. A pitcher found using resin not in powder form will be warned by the umpire and then if he uses it again will be removed from the game, and will draw a league suspension.

Industrials Vie With Oils And Coppers For Determinating Factor In Market

By LESLIE GOULD
International News Service Financial Writer

NEW YORK, June 27.—Industrials vied with the oils and coppers for determination of the stock market's trend today and the result was a highly irregular session.

Oils and coppers were under heavy pressure on fears of price unsettlement. The rest of the list was affected for a while but met support and displayed firming tendencies most of the time.

Losses in the oils ran to over 2 points, Amerada being weakest. Standard of New Jersey and California Standard lost a point each, while the others were heavy. Anaconda was heavily sold in the coppers.

Commodities provided little interest. Grains gave ground after their advance of the last two days. Silver steadier, and cotton was quiet. Bonds marked time while the dollar was firm.

U. S. Steel scored a moderate gain. Bethlehem also displayed a good undertone.

Chrysler and General Motors pointed higher.

Rails were unsettled in spots. Union Pacific lost as much as a point but the group firmed up around midday.

American Can ruled a point higher and DuPont improved.

The farm implement and mail order shares displayed considerable irregularity but price changes were small. Merchandising issues were somewhat unsettled, Woolworth losing nearly a point. Liquors were quiet and steady.

There was some selling in Consolidated Gas in advance of tomorrow's vote on whether New York City will move to build its own power plant. Other utilities were quiet awaiting the house vote on the holding company bill.

Turnover in the list was small and volume was the lowest in some time.

NATURE PRESENTS—

Wolf (Timber)

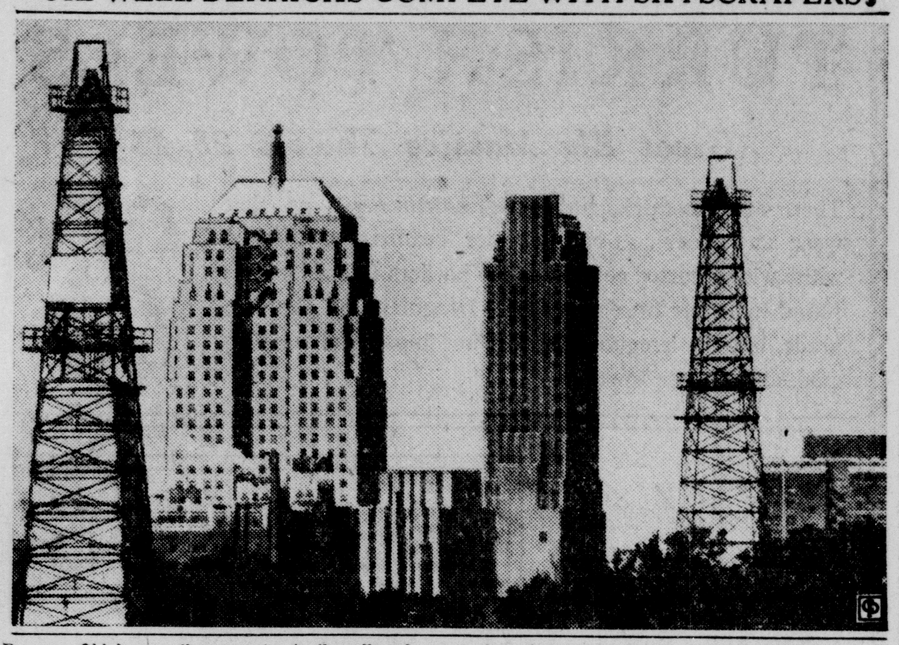

TODAY'S DRAWING LESSON

WHERE FOUND
North America.
PHYSICAL FEATURES
Five feet long (with tail) two feet two inches high, heavier and larger than the common wolf. Color—almost white face, back brownish white, much darker towards stern.
SPAN OF LIFE
Ten years.
FOOD
Deer and other game.
OFFSPRING
Four to eight

Hunting always by night, wolves combine in packs to attack large animals when driven by hunger. The deer's greatest enemy, the timber wolf feeds on anything from a mouse to a moose. It is the largest American wolf and kills so many sheep and calves that the government regards him as a public enemy and has placed a $10 price on his head. In captivity the wolf becomes attached to his master and yet even then may turn on him.

Because Oklahoma oil companies recently won the privilege to drill oil wells wherever they desired, downtown Oklahoma City has taken on a new appearance as oil derricks vie with skyscrapers.

AUTOMATIC SHOCKER ELIMINATES HARVEST HANDS

For 12 years Peter Ketelson of Wichita, Kas., has experimented with an automatic shocker and now he has pronounced it perfect. Pictured on the 280-acre wheat field of Will Schweiter near Wichita, the automatic shocker does away with the harvest hands who normally would be required to shock bundles of wheat tossed to the side by the binder. The shocker retrieves the bundles as they come from the binder, placing them upright in a cylinder. When the conical-shaped cylinder is filled, the bundles are released and set on the ground in full shock.

LITTLE ORPHAN ANNIE: Business as Usual

Old Post Office Is Just Another Vacant Building

Still For Sale Or Rent, Treasury Department Says, Without Comment

GUFFEY, ECKERT NOT INTERESTED

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News

WASHINGTON, D. C., June 27.—New Castle's old post office building seems to have become a "white elephant".

So far as the United States treasury department is concerned, the building is still for rent or for sale. Otherwise, not much comment concerning its status may be procured. It's just a vacant structure that doesn't mean much from the Washington viewpoint. In the absence of renter or buyers it may stand vacant forever insofar as those in charge of records here are concerned.

The campaign to have the old building turned over to the city for municipal use seems to have terminated. When they went down to defeat last year, both Senator Reed and Representative Swick of Beaver Falls had bills pending which would have authorized the treasury department to deed the structure to New Castle. Their successors—Senator Guffey and Representative Eckert—have shown no inclination to press for such legislature.

In one quarter here it is suggested the post office might be converted into a new library under the new work-relief program. Most of the cost would be for labor, and this would make the project meet work-relief requirements. It is suggested that if the city displays a willingness to supply necessary materials, Uncle Sam might consider deeding the building to the city and furnishing labor costs as a work-relief undertaking. Here in Washington, though, nobody seems to care a rap what becomes of the structure.

Fixing Up Freaks Is His Business

(International News Service)

OXNARD, Cal., June 26.—Freaks of nature are keeping Bill Silva, taxidermist, busy.

One freak brought to Silva's place was an "inside-out" calf. It had three front legs, and one rear. The tail was between the front legs.

And there was a jackrabbit with two tails, an albino blackbird and a four-foot rattlesnake without rattles.

CHILDREN TO HAVE BIG SUMMER CAMP

(International News Service)

UNIONTOWN, Pa.—The joys of a summertime camp vacation are to be made available to some 400 of Fayette county's underprivileged boys and girls during July and August under an emergency education program.

A 70-acre tract of land along Indian creek, about two miles from Normalvill, is being prepared to receive the vacationeers. Two weeks stay are planned for each group of youngsters at the camp, which will be capable of accommodating 100 children, and in this manner it is hoped a total of 400 may benefit over the two-month period.

Overwhelming preference for newspaper work was shown at a "career conclave", university instructors reported, with nursing, teaching and secretarial work next choices.

TODAY'S DRAWING LESSON

Since it feeds almost entirely on small mammals that injure farm products and orchard stock, the barn owl, sometimes known as the monkey-faced owl, is one of the most beneficial birds of prey existing. Hunting in the open, it kills various kinds of mice and rats and sometimes insects and birds. It conceals itself so well during the day, however, that its capture is rare. The barn owl emits a high, startling scream and a feeble, querulous note somewhat like the call of the nighthawk.

Ten Dollars A Month Paid School Teachers In Grandfather's Day

A yellow, musty record book found in the old house being remodeled by Sherman Hilton, New Castle, R. D. 5, only goes to show what a whale of a difference 80 some years can make.

The books are the minutes recorded by the local school board over a period of ten or fifteen years preceding the Civil War. Those days when New Castle was still young may have been "the good old days" to our grandfathers, and still are in the minds of many taxpayers, but no school teacher would care to turn his or her clocks back that far.

It seems that school teachers were paid the "substantial" wage of $19 per month in New Castle at that time, and the school board thought that perfectly natural. There came a time, though, when it was found advisable, in order to secure the very best teachers for schools here, that the board passed a resolution that "first class male teachers may be paid a salary not to exceed $13 a month." That notation was made on April 30, 1853.

In listing expenses it was stated that $36 was paid to Susan G. McMurray in payment for three months of teaching, and 87½ cents was paid to I. D. Clark for one school bell.

Meetings of the board were conducted at various places. In 1863 at the Maitland school house, at the Horn school house, and then at Mitchell school house. Washington House seemed to be the popular place in 1857, and the office of Joseph Justice in 1853. In 1850 meetings were held in the McKee hotel.

Coal was bought by the bushel instead of ton. The prevailing rate seemed to be $7.50 for 120 bushels.

The record book, now in the hands of Orville S. Dute, local drug store pharamacist, has created a great amount of interest among New Castle residents.

Motorist Will Pay Extra Six Dollars A Year

One-Cent Gasoline Tax Effective Here July 1, Adds To Motoring Costs

SPECIAL FEES PROVE COSTLY

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News

WASHINGTON, D. C., June 27.—The one-cent gasoline tax increase effective in Pennsylvania, July 1, will cost the average motorist of the Keystone State an additional $6 a year, according to the American Petroleum Institute.

With the new tax law in operation, the average motorist of the state will pay $50 yearly in motor fuel taxes and other special motor fees, the Institute reports.

The entire $10,000,000 a year expected to be raised under the additional levy will be diverted from highways, the Institute says. Present plans call for the use of this money for relief during the next twelve months. After that date it will be used to defray the general administrative expenses of the state, the Institute explains.

The Institute points out that "strenuous protests by motorists" defeated a proposal to elevate the Pennsylvania gas tax two cents a gallon but that this active opposition was unable to prevent the one cent boost.

SAYS RATS ARE BIG AS HALF-GROWN CATS

(International News Service)

JOHNSTOWN, Pa.—The rats that invade City Ordinance Officer George Pearce's chicken coop are so large and vicious he's almost proud of them.

In one night the rats destroyed 35 pullets valued at $25. They're as large as half-grown cats and so tough they eat their way right thru the floor of the coop, Pearce said. But just the same, George is watching for them with a loaded rifle.

DOGS ARE EMPLOYED IN "NUMBERS" CASES

PHILADELPHIA—Employing dogs to guard numbers slips police might desire as evidence is a new wrinkle in the lottery racket here.

Officers walked into the home of Mrs. Mary Grosso, 45, a suspected numbers writer. But two vicious dogs obeyed her instructions to keep the patrolmen from a suspicious-looking paper bag.

Raw meat finally lured the animals away. Six hundred slips were found in the bag, police said. They arrested Mrs. Grosso and her son Ralph, 23.

Riddled Body Of Unknown Man Is Found In Field Near Detroit, Fear Foul Play

(International News Service)

DETROIT, June 27.—With a good luck charm on his watch chain, the bullet riddled body of a well-dressed man about 35 years old, apparently from the east, was found near Rouge Park.

The man's clothing bore labels of New York City firms, and his watch was set on Eastern Daylight Time, an hour ahead of Detroit's Eastern Standard Time.

He evidently was shot to death sometime after midnight and his body dumped from a car. One bullet pierced his left temple, another his side. His watch bore a golden four-leafed clover, inscribed with French legend: "Je Porte Bonheur"—"I bring you good luck."

A locket found on the watch chain bore the initials M. W. D. and H. C. D.

Six Attorneys Are Disbarred

Six Prominent Philadelphia Attorneys Are Ordered Disbarred

(International News Service)

PHILADELPHIA, June 27.—Six more prominent Philadelphia lawyers, among them one who has practiced here more than 30 years, were disbarred today by the five president judges of common pleas court.

The charges on which the six disbarment opinions were based related principally to relations with clients and are not linked to the special numbers racket investigation that led to the disbarment of six other attorneys last April. Among the former was State Senator Samuel W. Salus, who has since obtained a supersedeas which permits him to continue practice until the supreme court hands down an opinion after hearing argument on his appeal next fall.

Those disbarred today are David R. Griffith, Jr., C. W. Van Artsdale, Alfred L. Wanamaker, Edward F. Forman, Charles H. Westbrook and Harry I. Hyneman.

At the same time, Judge Howard A. Davis, senior member of the court, who read the opinions, announced four other attorneys are involved in the charges against the lawyers disciplined today.

While their names were withheld, it was indicated three of the number will be permitted to resume practice while the fourth attorney's fate has not been decided because he has failed to appear before the judicial body.
